## Ordering Custom Framed Mirrors Is Easy!

- 1 Determine the outside measurements of the frame. We can discuss the specifics of the installation as well.
- 2 Select the Garner Handmade Moulding style from our catalog or we can order from these moulding vendors... Larson Juhl, Roma, Fotiou, Arquati, Bella (and many more)
- 3 With Garner Handmade Mouldings you can select any of our house colors and finishes....or we can work with you to develop an amazing bespoke finish.

## How to Find Frame Retail Pricing

### 1. Find linear feet:

Add total inches of all sides (*outside measurements*) and divide by 12.

Example: 15x20 inch frame

$15 + 15 + 20 + 20 = 70$  inches

$70 \div 12 = 5.83$  linear feet \*

### 2. Determine price of frame:

Multiply linear feet by the cost of frame. (see chart)

Frame 1303: \$60 per linear foot

$5.83 \times \$60 = \$349$  Frame Price

**\* Frames over 16 linear feet will incur a 10% oversize charge.**

Frame	Cost/Ft.	1430	67	1602D	75
1200	52	1440	52	1603	72
1210	61	1501	52	1603D	78
1302	61	1501D	52	1604	66
1302D	68	1502	46	1604D	72
1303	84	1502D	53	1605	64
1303D	70	1505	46	1605D	73
1304	59	1505D	52	1902	87
1304D	67	1507	43	1902D	94
1305	59	1507D	49	1903	91
1305D	67	1510	56	1903D	98
1416	46	1510D	60	1904	85
1418	52	1520	80	1904D	92
1425	52	1520D	86	1905	85
1450	62	1602	69	1905D	85

## How to Find Mirror Retail Pricing

### 1. Find square feet:

Multiply outside length x width and divide by 12.

Example: 15x20 inch frame

$15 \times 20 = 310$  sq. inches  $310 \div 144 = 2.2$  sq. feet \*

### 2. Multiply square feet x mirror cost-

Antiqued Mirror Cost= **\$42.50**/per square foot

Clear Mirror Cost= **\$19**/per square foot

Example: **2.6** square feet x **19**(Clear Mirror)=**\$49.40 Mirror Cost**

**\* Mirrors over 16 sq. feet will incur a 10% oversize charge.**

## Corner & Mirror Samples
