

FACT SHEET – CACTUS KIDOCALL
The ultimate 4G Smartwatch Phone with GPS for modern kids

FEATURES & FUNCTIONS:

- *a child's first mobile phone, requires a NANO SIM card with data, GPRS & caller display functions from any service provider
- *Download the APP SeTracker2 onto parent's phone or use computer GPRS platform
- *Uses GPS + AGPS + LBS +WiFi Location on map so you can track your child in real time
- *Two-way Voice Calls between parent-authorized contact numbers only
- *Two-way Video Calls between app on parent's phone & child's watch
- *Messaging / Voice Chat, so you can send short text messages to the watch - the KidoCall cannot send texts, but can read them and send voice clips in return
- *WiFi, BT
- *Camera – take photos with the watch & save them to Gallery
- *Phone book – parent controlled list of up to 15 authorized contacts, non-authorized calls are blocked
- *School Mode – disable all calls, notifications, alarms & sounds during class times
- *Intercom – max 15 seconds voice clips
- *Health – pedometer, distance, calories, and sleep monitor – data recorded in the APP
- *Class Schedule – set timetable schedule in the APP
- *Games – arithmetic games in 3 levels on the watch
- *Rewards – send (love heart) rewards from the APP to your child for chores done, good behavior
- *Safe Zones – you can set up to 3 safe zones in the APP and you will receive notifications when your child moves out of these areas
- *SOS Emergency Call – set 3 numbers in the APP & if your child presses the SOS button for 3 seconds these numbers are called continuously until answered
- *Multiple Alarms – you can set up to 3 different alarm clocks with repeat frequency daily/weekly e.g. medicine reminders, homework reminders
- *Low Battery Alerts – reminders in the APP that the watch needs charging
- *Charging - the watch is the same as a mobile phone & should be charged every night
- *Two parents can both be linked to one KidoCall watch
- *And one parent can have 2 or more KidoCall watches linked to the APP on their phone
- *Remote Shutdown – after the watch has been turned on, it can't be shutdown accidentally or deliberately by pressing the button; only the APP can force the watch to shut down remotely
- *Multiple Home Screen designs to choose from – up to 8
- *Connect with friends who have KidoCall and share photos & voice clips
- *IP67 waterproof, which is splash proof for daily use; can be immersed in stationary water; not for swimming or showering
