

## the baja coffee table

Slabs from 400-year-old Mexican yukas trees were used to make our Baja coffee tables - each was recovered from nature, kiln dried, cut in a way to best show off the natural grain, and paired with a forged iron base. For indoor use only; no two are exactly alike.

Please call your local store for availability and pricing.

### standard configuration

- dimensions vary
- overall height: 18"

### Pricing

\$4,800 (starting price)

### stock availability
