

the carmel cabinet, chen chen

The patterning you see on this version of our best selling Carmel cabinet is typical of Chen Chen, the rare African hardwood used in crafting this piece. It's an exotic veneer in golden yellow with shades of brown and red accents that needs no stain. The three doors feature touch latches, and open to reveal two adjustable shelves. A homenature exclusive.

Our interior design team will guide you every step of the way, from the moment you supply your ideal dimensions, to navigating the extensive list of customization options that includes wood stains, veneers, finishes and lacquer in every color Benjamin Moore makes. With the ability to mix and match bases and add drawers instead of doors, the possibilities are almost endless.
