

the homenature oak media cabinet

We designed this Oak Media Cabinet with a top that seems to float above the slightly angled base, creating a visually lighter piece that is still exceedingly functional. The two end doors open to reveal one adjustable shelf. The center "door" is actually a self-closing drawer. The back of this cabinet has cleverly designed openings for ventilation and cord control. Custom sizes and finishes are available. Made by hand in the USA. Homenature exclusive.

Our interior design team will guide you every step of the way, from the moment you supply your ideal dimensions, to navigating the extensive list of customization options that includes wood stains, veneers, finishes and lacquer in every color Benjamin Moore makes. With the ability to mix and match bases and add drawers instead of doors, the possibilities are almost endless.
