

the noho brass chair

NoHo is an accent chair that becomes the quiet “wow” piece in a room -- it looks great from every angle, thanks to the architectural antiqued brass frame that wraps around the back of the piece, and creates a retro-chic boomerang shape at the arms. The base of the chair is fully upholstered, with thicker seat and back cushions on top of all that, making it super comfortable and super stylish. And we love the way the arms are upholstered.

Custom crafted in North Carolina.
