Middle
Right

※Attach together to make a long straight line

※Fold and attach as shown

※Attach together to make a long straight line

※Roll to attach as shown ×2

※Choose your favorite stickers ×4

Location (1) Location (2)

Location (1) Location (2)

Location (1)

The diagram shows a cross-section of an underground station platform. It features a brick wall on the left, a platform with tracks, and a curved roof structure. Arrows point to various locations where stickers can be placed: on the wall, on the platform surface, and on the roof structure. A legend shows three types of stickers: a black rectangle with white text, a black rectangle with the AMTRAK logo, and a grey square. A circular inset shows a close-up of a sticker being folded and attached to a surface. A separate diagram shows two long, thin rectangular stickers being joined together to form a longer strip.

Raised station

AMTRAK

※Choose your favorite stickers ×3

※Roll to attach as shown ×2

The diagram shows a cross-section of a raised station platform. It features a brick wall on the left, a platform with tracks, and a roof structure supported by columns. Arrows point to various locations where stickers can be placed: on the wall, on the platform surface, and on the roof structure. A legend shows two types of stickers: a black rectangle with white text and a black rectangle with the AMTRAK logo. A circular inset shows a close-up of a sticker being rolled onto a surface.

Riser train track

※Choose your favorite stickers
※Put stickers on both sides of the riser base as shown

The diagram shows two views of a riser train track. The left view shows the track from a side perspective, and the right view shows it from a top-down perspective. Arrows point to the base of the track structure on both sides, indicating where stickers should be placed. A legend shows a grey square sticker.
