# Make it

## Shop our biggest selection of Personalized Leashes ever!

To best meet your particular needs, we give you the tools to create the exact leash you have in mind. Create a single line, up to 54 characters (includes spaces) for printing on the leash. Our white ink works well on all colors, and we suggest black ink on the brighter colors. If you'd like to add a little flair to your design, you can add a paw 🐾, a heart ♥ or a bone 🍗 to your design. For new orders, there is no extra charge.

### SET-UP FEE FOR NEW ORDERS:

There is a \$50 charge for your initial screen set-up. Please allow 3 weeks for set-up and printing.

### REPEAT ORDERS:

Please allow 1-3 weeks for printing.

## Personalized Collars

As important as ID tags are for pets, they are worthless without a collar to hang them on. Here's your chance to make sure your patients are covered. With your practice name and phone number printed on the collar, you have provided an important tool for a pet's safety and welfare, with the added benefit of keeping your business front and center. Clients will appreciate the gesture and enjoy a constant reminder of your goodwill.

These collars have been designed to fit any dog and feature a tensile strength of 165 lbs. Campbell Pet Company guarantees these personalized collars to successfully carry any tag, on any dog, for five years. Manufactured from the same ultra-sturdy nylon as our personalized leashes, our personalized collars are also available in an impressive assortment of colors. You may order a variety of colors or choose just one. Our white ink works well on all colors, and we suggest our black ink on the lighter colors. To design your collar, you can use **up to 34 characters (includes spaces)** to print on the 9/16 in. wide nylon collar.

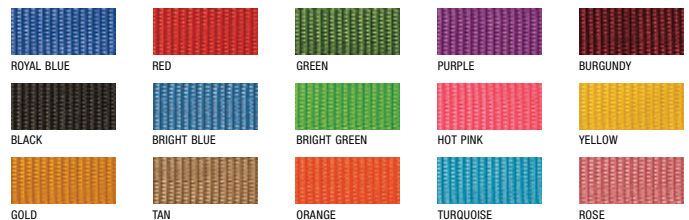

## Set-Up Fee for New Orders:

There is a \$50 charge for your initial collar-screen set up. For our customers who already have a personalized leash screen with us, the price for your collar screen is only \$25.00. Please allow three weeks for screen creation and printing.

### PERSONALIZED COLLAR COLORS:

## REMEMBER THE ID TAG!

We suggest RescueTags® (see pages 8 & 9). Make sure every pet leaves your practice with a collar and ID. With an ID tag, the probability of a lost pet (and patient) returning home is increased by 95%. It's simply smart business to make sure your patients are easily identified, get back to their rightful owner and stay under your care.

# Same great leashes and collars, now with a little added style!

**NEW FOR 2020!** Campbell Pet Company couldn't be more excited to offer a special selection of our Flat Leashes, Adjustable Collars and Stout Leashes, pre-printed with Paws and Bones. Send your patients home in style! Your clients will love it. Available in Green and Purple, these new leashes and collars are also available pre-wrapped for retail sale.

# LEASHES

Leashes from Campbell Pet Company feature the extra quality and craftsmanship you and your clients will appreciate. Our Rope Leashes are manufactured with 40 threads per strand, instead of the standard 30 threads per strand — meaning they are 25% thicker. As a result, they're more comfortable on the dog, easier on your hands and hold their round shape longer. Our Flat Leashes are 9/16" wide, instead of the standard 1/2" width. Why? This extra width secures the "D" ring more tightly, so it holds the loop open when tossing the leash over a dog's head and stays secure to prevent the animal from backing out. Our wholesale-priced Stout Leashes are a perfect retail item you can feel confident selling. These high-quality leashes are renowned for their superior webbing, ease of use and attractive assortment of colors.

- Made in the U.S.A.
- Guaranteed quality
- Superior, strong stitching
- Tough, nickel-plated hardware

## RETAIL READY

Leashes and Collars with the “” symbol are available with retail packaging for an additional 30¢ per item. Your clients will appreciate the quality while you enjoy the extra revenue!

## Cat Stretch Training Collars

Lightweight, fully elastic and very affordable, our Cat Stretch Training Collar is a favorite of Humane Societies and Rescue Organizations for the supervised collar training of felines. Once a feline is trained to comfortably wear a collar (with an ID Tag), we suggest our Purrfect or Elasti-Collar for long-term use. The Cat Stretch Training Collar features two buckle styles — Camloc (pictured) or Ladderloc (our most popular style). Please specify buckle style when ordering.

#### CAT STRETCH COLLAR COLORS:

## Purrfect Cat Collars

Combining the best from our Cat Elasti-Collar and Cat Stretch Collar, this collar is nothing short of Purrfect. It features an extremely durable, tightly woven nylon material sewn to elastic, and adds a new "strap keeper" to hold excess material and a tag, if necessary. For a Purrfect fit, the collar is easily cut and sealed.

### SIZING GUIDE

**CHEST WIDTH:** Measure around the front of the dog's chest, from leg to leg, being sure to include 1" behind each leg.

**GIRTH:** Measure the circumference of the dog's chest around the rib cage.

### NEW Front-Clip Harness

Exclusively from Campbell Pet Company, this Front-Clip Harness has been designed to provide the control needed for proper leash training. When a dog pulls towards something, the front leash attachment point causes them to pivot their chest around towards you. There's no tug o' war. The chest clip provides directional steering — allowing you to steer and re-direct the dog. Each harness is manufactured with sturdy nylon, high-strength Delrin plastic and strong, nickel-plated hardware.

### Metal Slide-On Tags

Easily slid onto a collar, this tag is a favorite of techs and clients. Printed with your practice name on the tag — it's good for business. Since it doesn't require rings or hooks, this "silent" tag won't jingle or rattle. Available in brass or stainless steel, the slide-on tag will fit most collars up to 5/8". If you'd like, we can send some samples for you to try.

## RescueTags®

Easy to customize and built to last, RescueTags are one of the most innovative, effective and durable ID solutions on the market. In fact, we literally road tested our RescueTags against common metal ID tags. Dragged behind a car for over one-hundred miles, the specially formulated plastic RescueTag held up to bumps and scrapes where the metals could not. For \$75, you can also order 1,000 RescueTag labels, pre-printed with your practice name and phone number.

Our RescueTag Retail Packages include a tag, insert, ring and pen — everything needed to create a tag. Plus, you can choose from a wide assortment of colors.

**COLORS:** Blue, Green, Gold, Red, Pink, and Clear.

Bags of 100 each or an assortment is available.

## RescueTags Caddy

With your first order of 100 or more #330 RescueTags, we'll include a clear, acrylic RescueTags Caddy.

## Cage Card Holders

Veterinary and Kennel staff tell us they've been using our plastic Cage Card Holders for up to 10 years. Yet, they cost a fraction of the price of steel holders. The Holders attach to nearly any cage with simple, replaceable cable ties, and they hold a standard 5" x 3" index card. Made with sturdy, white card stock, and a perfect fit in the Holder, our 5" x 3" pre-printed Cage Cards come in two designs.

# Have clients with cats?

## Send them home with the best cardboard cat carrier!

### Pet Waggins

Guaranteed, Pet Waggins are the best cardboard cat carriers made in the U.S.A. In fact, if you're not satisfied, we'll pick them up and give you a full refund. The one-piece design is both easy to assemble and convenient to store. And talk about strong — 45 lbs. of bricks couldn't tear the handle or bulge the bottom. Plus, the water and oil resistant coating sheds urine easily. Several small ventilation holes also prevent paws from getting caught.

Prices are FOB from shipping point. If you are east of the Mississippi River, we will ship from our Indiana Warehouse to save you money.

**The best way to manage your Quick Muzzles** From the unruly to simply a bit rowdy, muzzles can offer a very necessary and valuable form of protection. Of course, muzzled dogs should always be supervised. To ensure years of use and positive results, the proper care and handling of any muzzle is essential. Maintaining a clean muzzle is critical to the animal's good health. That's why it's important muzzles should be washed, disinfected and dried between uses. And for the best results in putting a muzzle on an animal, we offer the following tip: Hold the buckle firmly with one hand, and pull the webbing straight down. By pulling straight down, you'll discover how easily the webbing slides through the buckle. If you were to pull laterally (away from the animal's head) the webbing could be difficult to pull through the buckle.

# & TRIED TRUE

## Quick Muzzles

When speed is essential for temporarily restraining an animal and eliminating the risk of injury from bites, these are the muzzles to have on hand. They are designed to subdue animals for easier handling and examination. Made of reinforced, durable and washable nylon pack cloth, each muzzle features a Delrin quick-release buckle (excluding Cat and Pug Breed). So you are always prepared, it's a good idea to keep plenty of each size in stock.

## Vinyl Basket Muzzles

Sometimes, even the best dog needs the protection of a muzzle. For handling and grooming, protecting wounds, preserving valuables or providing supervised freedom for assertive dogs, we encourage you to try this very popular muzzle. Because it is designed for comfort and welfare, it provides a dog the ability to open its mouth to pant and drink. Made of lightweight plastic, it has a soft strip of felt on the inside of the muzzle rest. A collar attachment is included. These Vinyl Basket Muzzles are washable and can be sterilized.

# The fastest, easiest and safest way to transfer small animals from cages!

## EZ-Nabbers

Ensuring safety for animal handlers, saving incredible amounts of time, and providing dozens of uses, the EZ Nabber is a very smart and sound investment. In addition to providing a safe and humane way to capture animals, aseptic intramuscular injections of tranquilizers, anesthetics and vaccines can be given through the net. Pets can be transferred from one cage to another without injury or stress to the animal or the practice staff. Pets can be removed from and/or placed in cardboard pet carriers. When the net becomes soiled, leave it on the frame and wash it in the tub with soap and water; use a disinfectant if needed. Abscesses and wounds can be flushed, and the pet can be bathed in the net. Our 14" frame fits 18" x 18" cages. Choose blue or green net.

# The quickest and most gentle way to catch pets!

## Snappy Snares

Like all of our MVPs, the Snappy Snares are practical, affordable and very popular. We've literally sold thousands of these resilient snares. By virtually eliminating the risk of being bitten and scratched by frightened pets, Snappy Snares have become a must-have for technicians worldwide. This product truly offers the quickest and most gentle way to catch pets. Backed by a 100% guarantee, we encourage you to try one.

### 30" Snappy Snares

Featuring a new sure-grip handle, plus a smoother, stronger and more durable material, the new 30" Snappy Snare efficiently and humanely gets an intimidated cat or small dog out of the back of a cage. Compared to lassoing or toweling a cat, the Snappy Snare makes quick work of securing the animal. Place the loop over the cat's head, release the ring and snap it up to take out the slack. Just like that, you've got 'em. *Color may vary.*

### 49" and 65" Snappy Snares

Our 49" and 65" models are intended for larger, evasive, fear-biting animals. Less invasive to frightened animals than a Rabies Pole, these sizes work quite well in larger kennel cages and runs. Even better, you'll discover most dogs are happy to comply once they've been snared.

Snappy Snares are not intended for aggressive, charging animals. For vicious, unpredictable animals, Animal Control Poles work best.

# At a safe distance, now you can inject with more control

## 30" Precision Pole Syringe

While our standard Pole Syringes gained popularity as a safe and sometimes necessary injection tool, our new 30" 3ml Precision Pole Syringes add even more user control. From a safe distance, now you can give an injection just as you would if you were holding the syringe in your hand. Once the needle is inserted precisely where you want it, the plunger can be compressed to deliver the contents of the syringe. To do so, this pole syringe has been designed so the internal metal plunger presses against the plastic syringe plunger to force out the contents in the barrel into the animal. Now you can count on more precise and accurately applied dosages. **For best results, use 20g or 18g by 1/4" or 1/2" needles.**

## Pole Syringes

Often, when people see our Pole Syringe we hear them say, "I needed one of those last week. Please, send me one." In addition to our 3/8" by 30" models, we have an ultra-sturdy 3/4" by 48" Pole Syringe, designed for larger animals. Built to last and a real time saver, each pole is supplied with 6 syringes and needles. Choose 5ml, 3ml or 1ml syringes. **For best results, use 20g or 18g by 1/4" or 1/2" needles.**

The 3ml adapter will fit a 3ml or 5ml syringe by cutting the thumb part of the plunger off and then sliding it onto the stainless steel adapter. With the 1ml, you simply replace the plastic plunger with the stainless steel plunger, by adding the rubber stopper from the plastic plunger, and then slide the syringe over the plunger.

# Stainless Steel OmniCage

**A better transport, recovery  
and examination cage – all in one!**

## Stainless Steel OmniCage

Over the years, the Stainless Steel OmniCage has gone through some impressive improvements customers certainly appreciate. Superior plating means all those moving parts move a little easier and its high quality, stainless steel construction ensures it can last as long as your practice. Most recently we designed in a solid-steel floor for easier care and added comfort for animals. Its multitude of uses are all still there, only now there are even more design features that make it easier and faster to take advantage of all that functionality. Backed by a 100% money-back guarantee, the Stainless Steel OmniCage is destined to become permanent equipment in your practice. If you don't absolutely love it, we'll take it back and refund you completely. It's that good.

#1400-S-SS STAINLESS STEEL OMNICAAGE (15 lbs)

## Features & Benefits:

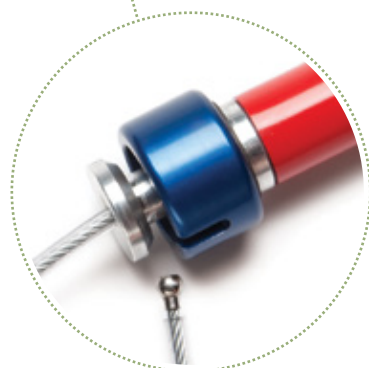

- Solid floor design provides easy care and comfort.
- Secure locking mechanisms are on front sliding ports and solid-plate sliding door.
- I.V. injections can be given by pulling a leg out of the sliding port, while other injections are given through the bars.
- Solid-plate, sliding door enables safe and easy transfer of feral cats from traps.
- Rotating the OmniCage, so it is resting on the sliding side of the cage, creates a raised floor where fluids can easily drain away from a recovering, anesthetized cat.

# The best Mobile Folding Stretcher Made in the USA!

To provide more safety and security, we've added an easy-to-use locking device that securely "locks" the stretcher in its open position.

## Mobile Folding Stretcher

Look no further than Campbell Pet Company for the best value on a Mobile Folding Stretcher — one that can be stored, used by all staff members, cleaned-up easily, looks professional and really holds up!

The stretcher is made of drawn, high-strength aluminum (i.e. Aircraft tubing). As a result, it is incredibly strong, yet lightweight enough to carry, store and maneuver with ease. How strong? It's been tested to successfully carry more than 300 lbs. Whether you prefer a stretcher with two swivel wheels or four, each model is designed to make fast and easy work of maneuvering the stretcher around corners and through narrow halls. The mesh cover is porous, so it breathes and is easy to clean. Because the stretcher folds up conveniently, storage is no problem at all. In total, the Mobile Folding Stretcher is the solution you'll want on hand to care for large, injured or anesthetized animals. Now when a client brings their injured pet to your practice, the staff will be ready to safely and professionally transport the animal.

## Pet Stretcher

Our Pet Stretchers provide an essential, smart and safe way for your staff to transport a large animal that is injured or anesthetized. Like all items offered from Campbell Pet Company, we've put this product to the test. That is to say, we were able to carry 300 lbs. without damage or compromise in the stretcher's performance. It's definitely strong and very lightweight.

Our Nylon Stretcher features soft, reinforced nylon fabric, three straps made of 2" seat-belt webbing and adjustable Delrin® buckles.

Our Mesh Stretcher features a breathable mesh material that allows liquids to drain off easily. For a quick and easy washing, you can place this stretcher over the tub. X-rays can also be taken through the mesh material.

Each stretcher is made with 3/4" fiberglass poles and features soft, plastic handlebar grips. Both mesh and nylon models have a total height of 52" and a carrying surface of 22" x 42", and they roll up for quick and easy storage.

## Trimline® Collars

Can something so soft and comfortable really hold up as a reliable recovery collar? The answer is yes. New orders, re-orders and reams of positive feedback from Vets and Technicians confirm it's true. By the very nature of its comfortable construction and fit, pets can easily eat, drink and sleep comfortably, thereby allowing them to recuperate quickly. Seeing how this collar can put their pet at ease, clients are also more likely to keep this collar on their pet as per doctor's instructions. Assort sizes for your best value.

*Trimline Collars are sized by the depth of the collar. The draw string is easily adjustable to fit the patient's neck.*
