Our Family of Personal Rejuvenizers®

Modern technology, although crucial to our everyday lives, continuously exposes us to hazardous electrical and electromagnetic fields (EMFs). Unfortunately, this poses a serious threat to our health and well-being. Constant exposure to these negative energy fields drains vital life force from our physical and subtle bodies, often contributing to a weakened immune system and a variety of other health concerns.

Rejuvenizers can help you overcome the fatigue and exhaustion that often result from exposure to electromagnetic fields. Rejuvenizers help protect you and your family from the detrimental, disorienting effects of electromagnetic pollution—in your home, at work, in your car—anywhere you go.

The Rejuvenizer technology represents over thirty years of research and development by Dr. Phyllis Light, a pioneer and expert on how technology impacts our physical body and subtle energy field. The Rejuvenizers have a special protective, uplifting quality unlike any other product available today.

This woman had only a few hours' sleep the previous night and felt exhausted when this photo was taken.

After carrying the Personal Rejuvenizer for only 20 minutes, she reported feeling more awake, energized and refreshed.

These photos were taken by a special camera, able to capture the subtle energy field surrounding a person's body.

Feedback from Rejuvenizer® Owners

"I've always worked in high EMF areas. I've been sitting in front of 21-inch monitors for over 15 years. I remember times when I used to feel sick at the end of a workday. I have not felt that way since wearing the Personal Rejuvenizer."

—C.K., Computer Programmer

"Having the Personal Rejuvenizer has been amazing as far as my massage therapy work goes, because I don't go home near as fatigued, tired, and exhausted as I used to. I actually have energy when I finish work! The same thing happens when I'm sitting at the computer... my eyes used to be so tired by the time I would finish... and now, I don't have that problem anymore."

—A.P., Massage Therapist

"My wife and I had been very worried about our seven-year-old daughter who said she hated school, never wanted to go, and continually refused to do her homework. We got her a Personal Rejuvenizer, and right away, she started becoming more comfortable with school, and we've noticed a significant improvement in her attitude and behavior. Her academic skills started improving as well. Even her teachers have commented on the positive change they've seen in her!"

—S.W., Software Engineer

"I used to get sick with viruses every time I got on a crowded plane. It was so bad, I had to wear a mask during the flight. Now, I don't need to wear a mask... and I'm not getting sick anymore!"

"I've had my Personal Rejuvenizer for two months now, and I feel it has resulted in some new and deep insights in my meditation. Before, it was as if I had to battle through a lot of noise in order to meditate, and now that noise has been completely shut off. So, I'm very pleased. The insights are really remarkable, and the difference is quite noticeable to me."

—S.V., Spiritual Seeker

"For the past twenty years of my life, I have been plagued by horrible nightmares in which I was being chased or killed. Since I've been married, my husband would hear me screaming and thrashing in the middle of the night, and then I would wake up terrified, clenching his arm. Since getting the Personal Rejuvenizer, I haven't had one single nightmare like that, and I am now sleeping peacefully the whole night through. It's been great—for both of us!"

—S.A., Accountant
Shoreview, Minnesota

"I have always gotten sick during the period at the end of each semester, when we've had to write term-papers and take finals. My mother recently gave me a Personal Rejuvenizer and this is the first time I've ever gotten through the entire end of the semester without getting sick."

—M.U., College Senior

"I have scoliosis—it runs in my family—and always have back pain. Someone handed me a Personal Rejuvenizer and I held it for about an hour. The pain decreased and my back didn't hurt as much as before. I was impressed."
