- Made in USA

# Guardian Series

## ▼ Features

Containers offer many years of trouble-free service.

Cold galvanizing spray treatment available for extremely salty and humid environments

Modular construction for simple changeout of panels and lids

Side opening door features strong, durable hinge made of 304 grade stainless steel that will not rust

Door panel locks to prevent vandalism and stays closed between collections

Anchoring holes in base of container

High grade 14 gauge galvanized steel frame—the premium process for paintability and corrosion resistance

White Panel Insert

High quality corrosion resistant, zinc coated hardware. Above, frame and screw assembly for easy lid attachment. Right, frame and screw assembly for easy panel insertion.

1) Choose size—35 or 55 gallon

2) Choose lid—indoor or outdoor

3) Choose panel—many finishes available

The Guardian's construction provides ergonomic collection paired with durability to perform in very heavy traffic areas.

Steel frame ensures the toughest quality materials available for securing contents.

## ▼ Lid Configurations

- Outdoor lids have solid tops with openings on sides. Available with waste, beverage container recycling or newspaper recycling opening. Optional ashtray bowl, which is inserted on top, available.
- Indoor lids have openings on top. Available with waste, beverage container recycling or newspaper recycling opening.

Lids pictured reflect a sampling of what is available.

## ▼ Panel Finishes & Features

- Stainless steel panels are high quality 304 grade
- Stainless steel panels are powder coated with clear coat for scratch and scuff protection
- Powder coat finishes are low VOC
- Receptacles can be two-tone by using different colors on frame and on panels

All stainless steel panels are 20 gauge.

## ▼ Homeland Security

With a 94 UL rating, Makrolon® polycarbonate has a very high melting point providing additional content security in case of fire.

- Compliant with the Department of Homeland Security directive for clear plastic containers
  - Clear panels are made of Bayer Science® brand Makrolon® polycarbonate. UV resistant and non-yellowing
- Available in thicknesses of:
- 0.236" heightened security version
  - 0.093" for a more economical choice

## ▼ Customized Options

- Precision laser-cut logo or message on either stainless steel or powder coated panels
- Premium 3M™ vinyl decaling available to convey type of waste or recycling material
- Custom powder coat colors available for panels, frame and lid

*Don't see exactly what you are looking for?* Please inquire with your Area Manager to discuss your specific application, as our manufacturing facility may be able to create a customized solution for you.

Laser-cut containers have two layers: outer panel of stainless steel or powder coat color has laser-cut logo; inner panel is black or choose a color.

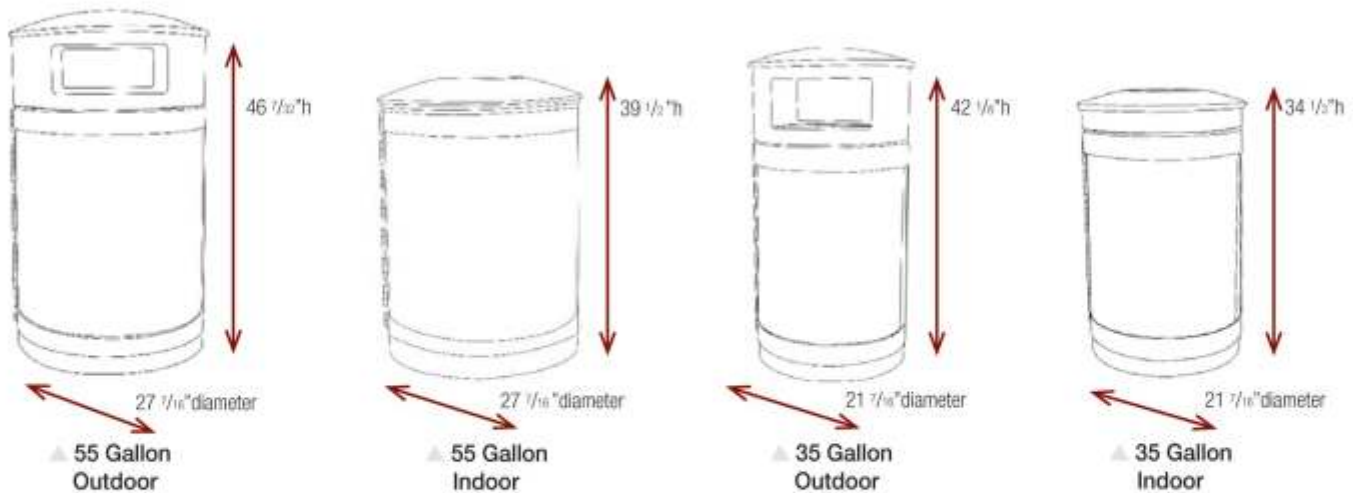

All Guardian containers are compliant with the Americans with Disabilities Act.

To prevent lifting injuries and provide easy access to contents, the bag ring hinge conveniently swings out.
