HOSPITALITY

Caesars Las Vegas
Tavern On The Green
Park Central Hotel
Four Seasons Hotel
Venetian Hotel

Decorators Supply offers nearly fifty beautiful, historically accurate wall panel designs. The goal of this catalog is to highlight our twenty most popular panel designs. This catalog allows us to provide general sizing information, image close-ups of the key design components, and general ordering information.

• • •

Our History

Our wall panel designs are a combination of hand cast composition ornaments combined with poplar wood mouldings. Composition ornaments have an impressive pedigree.

While Decorators Supply has been producing “compo” ornaments for well over 100 years, famous British Architect Robert Adam is credited with popularizing its use during the classical revival in England and Scotland during the latter half of the 1700’s. While our ornaments are not hand carved, our library of wood Masters were hand carved between 1900 and 1920 by European Artisans who immigrated to the New World. It is from these carvings that we make our ‘exact impression’ moulds used to produce our composition ornaments. Check out our website if you would like to read more about the impressive pedigree of our composition ornaments.

PRODUCT INFORMATION

While this catalog shows our panel designs in a specific width, there is quite a bit of flexibility in the size and design of our panels. Our panels can be modified in a number of ways:

- The vertical components of these panel designs are comprised of poplar wood mouldings (all ‘9900’ numbers are wood mouldings). As such, these panels can be made taller or shorter by simply ordering more or less of the wood mouldings.
- In many of our designs, wood mouldings (9900 items) are used in the top and bottom areas to connect center and corner ornaments. In these designs, the width can be modified by adjusting the amount of wood utilized.
- In many of our panels, the designs can be modified by omitting some of the components (i.e. eliminate center ornaments but keep corner ornaments, etc.)

Fee free to contact us if you have questions relative to sizing and panel configurations. If you would like to get an overview of all our 50 panel designs, check out the ‘Wall Panel’ Section of our website.

All designs are copyrighted.

INSTALLATION INFORMATION

Insofar as the ornaments are a composite material, installation needs to be handled a little differently than what would occur with wood ornaments. We have developed a short video to provide basic installation instruction on our website (see Video Number 1 – “Non Steaming Method”)

A common question relates to the best method for connecting the wood mouldings to the compo ornaments. We would recommend that you consider an angled cut versus a square cut. You can utilize a band saw or coping saw to accomplish this. Here are a few images to illustrate this approach. And as always, please feel free to call 800-792-2093 if you have further questions or require additional assistance.

Cut with sabre or table saw

Our Full Line of Catalogs

Cast Plaster Ornaments

Cornices, moldings, pediment ornaments and grilles, made of hard plaster of Paris and properly reinforced with hemp fibre and steel rods for exceptional durability. Our Plaster Ornament Catalog is both an idea-starter and a problem-solver – illustrating hundreds of exceptional design elements in styles ranging from Classic through Renaissance, Baroque, Georgian English, and French Empire to Colonial and Modern.

Order Catalog 130

Ornaments for Woodwork and Furniture

Select from thousands of composition appliques and linear mouldings which are illustrated in our historic 305 page art book. Imagine, design and create unique projects using our staggering assortment of classical rosettes, festoons, wreaths, shields, running mouldings, valances, pilasters and finials. This “made to order” ornamentation will accept a variety of finishes and can be applied to curved surfaces.

Order Catalog 124

Period Capitals and Brackets

Capitals for both columns and pilasters and brackets for varied applications add distinction to both commercial and residential buildings. Choose wood embellished with composition (used with woodwork), or handcast fiber reinforced plaster (with plaster finish). Our catalog offers many sizes and styles, amply illustrated.

Order Catalog 127

Custom-Built Mantels: Colonials, French, Georgian, Adam

Our mantels are individually built by our own craftsmen, using cabinets-grade materials and carefully applying our individually-produced composition ornaments. Our craftsmen are unexcelled resources for architects, decorators and their clients, assuring fireplaces of enduring beauty. Constructed for natural (stain and varnish) or paint finishes. Customize your mantel, selecting ornaments from our Catalog 124. Specify special sizes and woods if desired.

Order Catalog 131

Authentic Reproductions

Finely-detailed replicas of hand-carved ornaments created in our own studios - many more than one hundred years ago. Executed in our highest tradition of craftsmanship, these carvings are delivered ready to accept stain and varnish, paint or metallic finish. Choose from some 600 illustrated designs, executed with traditional artistry and shown with exact dimensions.
