

# BATTERY/CELL SAFETY INFORMATION

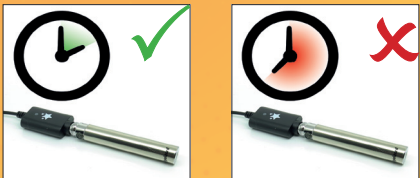

## CHARGING YOUR BATTERY

- Batteries purchased from Ecigwizd **MUST** only be charged using our USB chargers and mains adaptors.
- Any third party adaptors used may cause harm to the battery and/or human life

- **NEVER** leave a charging battery unattended and we strongly recommend using a safe charging bag

- **NEVER** leave a cell or battery on prolonged charge

## BATTERY / CELL SAFETY

- **DO NOT** store batteries in close contact with metallic items

- **DO NOT** attempt to use damaged cells or batteries
- **DO NOT** place in clothing due to the risk of accidental activation
- **DO NOT** expose cells or batteries to heat or fire
- Batteries and cells must be **KEPT OUT** of direct sunlight
- Only remove cell or battery from original packaging when needed
- Keep cells and batteries clean and dry
- Wipe the cell or battery terminals with a clean, dry cloth if they become dirty
- Secondary cells and batteries need to be charged before use
- Store your cell in an Ecigwizd supplied cell case when not in use
- After extended periods of storage, it may be necessary to charge and discharge the cells or batteries several times to obtain maximum performance

## BATTERY / CELL BEHAVIOUR

- **DO NOT** dismantle, open or shred cells or batteries
- **DO NOT** subject cells or batteries to mechanical shock
- **DO NOT** short-circuit cells or batteries
- In the event of a cell leaking, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice
- Observe the plus (+) and minus (-) marks on the cell, battery and equipment and ensure correct use
- Seek medical advice immediately if a cell or a battery has been swallowed
