

PANDERE

EXPANDABLE FOOTWEAR

Our patented shoe design expands to fit swollen feet in style. From lymphedema and diabetes to pregnancy and runners' bunions, we've got the shoe for you.

REMOVABLE INSOLE

NO-TIE TOGGLE SYSTEM

EXPANDABLE FOOTWEAR

WE MAKE EXPANDABLE SHOES for the millions of people all over the world dealing with conditions that affect the shape and size of their feet, such as swelling, diabetes, bunions, foot braces or edema that can occur during pregnancy or air travel. Off-the-rack shoes simply do not work for this neglected population. Our shoes give you back your mobility and decrease the risk of abrasions and cellulitis, plus you're going to love the look and feel of our premium materials and fashion-friendly designs.

PANDERE

WE ARE THE FIRST COMPANY to design an unanchored toe-box for a closed toe shoe. Our shoes provide support like a traditional orthopedic shoe as well as stretch that conforms to individual feet - critical for maintaining mobility.

**EXCELLENT SHOES,
EXCELLENT SERVICE**

"...perfect in every way. I have mild swelling, plus a very high instep, and these are the first closed shoes I've been able to wear in a decade.

Thanks Pandere, for such excellent shoes and for creating a culture of such phenomenal customer service!"

- Pat R., February 2020

I LOVE THESE SHOES

"I am so grateful to have found this shoe. I have lymphedema in one foot and leg and was wearing a slipper on that foot. My Barista shoes (in blue) fit both feet, plus they are fashionable so they don't look like a granny shoe."

- Sandra, January 2020
