

# CHANGING YOUR TRANSPONDER IMMOBILISER PERSONAL IDENTIFICATION NUMBER (PIN)

The system fitted to your vehicle is designed to allow emergency over-ride by means of a four digit PIN. This sheet details how to customise your vehicle security system with your own four digit PIN.

--	--	--	--

RECORD NEW PIN HERE

**FOR MODELS:** P205.

## **TO ENTER A NEW PIN, IF THE ORIGINAL PIN IS KNOWN**

- Ensure all valid tags are removed from the antenna area. Enter known PIN as per standard PIN override procedure.
- Before the 15 seconds, turn the ignition switch to the ACC position and count in the first digit of the new pin.
- Return ignition switch to ON position when each count is reached.
- Repeat for remaining digits of new PIN. When all numbers are entered, the status LED will flash quickly.
- Show a valid tag to antenna. The status LED will flash back the new PIN, each digit separated by a long flash.
- Show valid tag to antenna to confirm new PIN and eject old PIN (wait for report to finish).

Should you experience difficulty altering your Emergency PIN, please do not hesitate to contact one of the approved installers on
