Development Fund

Superfast South Yorkshire Connection and Innovation Vouchers Scheme provide eligible SMEs with funding to improve their broadband connections and/or introduce digital innovations into the business.

“As a young start-up business, we need all the support we can get. We have been very fortunate to have received some incredible financial support from Sheffield City Region and the EU that has allowed us to install a Sage accounts and stock management system that has proved invaluable in our growth as a business. For me, it is not only the financial support that has helped, but the knowledge that there are organisations ready and willing to help our start-up business has motivated me to keep pushing the business forward. I don’t know where we would be without this support”

Chris Renwick, CEO

Lucy and Yak Ltd has received funding from The Sheffield City Region European Regional Development fund (ERDF), part of the European Structural Investment Fund (ESIF) portfolio 2015 to 2020.
