

## DIAL-A-FLO™ Emitters (Adjustable)

The DIAL-A-FLO™ is an adjustable emitter available in a variety of configurations and spray patterns. The cap is calibrated so that as it is rotated, the flow rate and the radius changes.

**DAFB**  
1/4" Barbed Inlet

**DAFT**  
1/4" Threaded Inlet

**DAFU**  
1/2" FIPT Inlet

The DIAL-A-FLO™ is available with either a barbed or threaded inlet, and with a barbed inlet on a stake.

The DIAL-A-FLO™ on a stake is suitable when you want to mount the emitter a few inches above ground level.

**DAFS**  
1/4" Barb  
on 6" Stake

	<b>DAFB 360</b>	360° stream spray, 1/4" barbed inlet
	<b>DAFT 360</b>	360° stream spray, 10-32 NPT inlet
	<b>DAFS 360</b>	360° stream spray, 1/4" barbed inlet on 6" stake
	<b>DAFU 360</b>	360° stream spray, 1/2" FIPT inlet
	<b>DAFB FAN</b>	360° fan spray, 1/4" barbed inlet
	<b>DAFT FAN</b>	360° fan spray, 10-32 NPT inlet
	<b>DAFS FAN</b>	360° fan spray, 1/4" barbed inlet on 6" stake
	<b>DAFU FAN</b>	360° fan spray, 1/2" FIPT inlet
	<b>DAFB BUB</b>	Umbrella bubbler, 1/4" barbed inlet
	<b>DAFT BUB</b>	Umbrella bubbler, 10-32 NPT inlet
	<b>DAFS BUB</b>	Umbrella bubbler, 1/4" barbed inlet on 6" stake
	<b>DAFU BUB</b>	Umbrella bubbler, 1/2" FIPT inlet

The DIAL-A-FLO™ comprises a cap and a base which can be completely taken apart should it plug. Simply clean it out and screw back together.
