## Alternative Installation Options for Smart Socket 3.0

### Option 1

You can use the Smart Socket 3.0 with the antenna connected directly to the device port.

You can use this option when the Smart Socket 3.0 is not installed inside a transformer enclosure.

Technical requirements

consistent 2.4 GHz Wi-Fi signal at the installation location with dBm strength of -70 or better.

## Option 2

You can use the Smart Socket 3.0 without the antenna.

You can use this option when the Smart Socket 3.0 is installed in a covered receptacle box.

Technical requirements still apply. Must have consistent 2.4 GHz Wi-Fi signal at the installation location with dBm strength of -70 or better.
