- Easy twist on.
- Trouble-free installation with double helix design.
- Used with swing pipe and other thick walled 1/2" I.D. tubing.
- Used in drip irrigation, home sprinkler systems, and other residential/commercial irrigation applications.
- Patent Pending: US Patent 6,899,355
- Made from virgin Acetal material

The innovative Double Helix® makes the Blue Twister® swing-pipe fittings the easiest to install. No longer is there a need to hammer or walk them into the pipe. Just twist the pipe and let the Double Helix® pull the pipe onto the fitting.

Once the pipe has covered all the barbs, you are assured a connection that does not leak and will withstand the water pressure of your installation.

Each piece is manufactured from Acetal. Acetal is specially formulated for wear applications and offers excellent rigidity, impact toughness, abrasion resistance and solvent resistance. It also offers better creep resistance and thermal stability, as well as low moisture absorption and resistance to chemicals.

Each piece is marked with an "A", letting the customer know that it is a true Blue Twister® product manufactured from Acetal.
