

ZD MR-16

NOW LUXOR® PLAYS WELL *with others*

The ZD MR-16 is a convenient high-quality drop-in LED replacement lamp that converts incandescent fixtures to energy-efficient LED fixtures. When connected to a Luxor ZD or ZDC controller, the ZD MR-16 adds zoning, dimming, and Wi-Fi control capabilities to any brand of low voltage lighting fixture. **See how it works at: fxl.com/ZDMR16**

ZD MR-16 LED Lamp

Luxor offers both zoning and dimming capabilities, providing virtually limitless design possibilities. Zoning allows lights to be programmed into preset vignettes, which can be activated for special occasions such as parties, or activities such as barbecuing. Dimming allows lights to automatically emit any desired illumination percentage anytime, anywhere within a system. So, Group 1 can be set to 100% illumination at 8:00 p.m., and automatically shift to 30% at 10:00 p.m., and so on.

LUXOR® Wi-Fi Control
