FLOATER FRAME / CAISSE AMERICAINE

Photo printed on paper then stuck to a 1mm thick aluminium plate or under plexi. No glass, the print is installed on a 4 cm deep mount. With 1 cm emptiness between its sides and the wood frame

BOX

The print is placed at the bottom of a 3-5 cm deep frame with a glass

FLOATING BOX

As for floating frame, the print is placed on a mount so looks in suspension. But this time a glass is added. And the space between the print and the frame is larger, 6 cm
