

13EIGHTY

DESIGN BY SCHOLTEN & BAIJINGS

13EIGHTY

HAY's 13Eighty chair designed by Dutch designers Scholten & Baijings is aptly named after the number of tiny holes in the moulded polypropylene shell. These perforations create a characteristic aesthetic, where transparency and a play of light and shadows add to the chair's expression, while the variations in the sizes of the holes bring a sense of movement to the visual appearance. They also have a functional use in draining rainwater off when the chairs are used outdoors. The chair features steel legs with a weather-resistant coating to make it suitable for outdoor use. It has a stackable design and is available with or without armrests.

SCHOLTEN & BAIJINGS

Scholten & Baijings is the design studio of Stefan Scholten (b. 1972) and Carole Baijings (b. 1973), situated in Amsterdam, The Netherlands. Founded in 2000, they work across product, furniture, graphic and exhibition design. They have worked on a wide number of product typologies including chairs, ceramics, glassware, textiles, rugs, and tableware. They also worked on concepts for prestigious institutions and brands. Together they have won a number of awards, including the Dutch Design Award, the Wallpaper Design Award and the ELLE Decoration International Design Award. Scholten is a graduate of the Design Academy Eindhoven, while Baijings is a self-taught designer. Perfectionists by nature, their products are distinguished by a carefully considered use of pattern, colour and graphic elements. For HAY they have designed a wide selection of different furniture, textiles and accessories. These include the Tilt Top Table, 13Eighty, Tea Towels, , Colour Glass, Paper Porcelain, Colour Binder, Bed Linen, Paper Carpet, Colour Carpet and Dot Carpet.

PRODUCT FACT SHEET

13EIGHTY

DESIGN BY SCHOLTEN & BAIJINGS, 2014

HAY's 13Eighty chair designed by Dutch designers Scholten & Baijings is aptly named after the number of tiny holes in the moulded polypropylene shell. These perforations create a characteristic aesthetic, where transparency and a play of light and shadows add to the chair's expression, while the variations in the sizes of the holes bring a sense of movement to the visual appearance. They also have a functional use in draining rainwater off when the chairs are used outdoors. Available with or without armrests in a stackable design that features steel legs with a weather-resistant coating to make it suitable for outdoor use.

HIGHLIGHTS

- Moulded plastic shell with steel legs.
- Available with or without armrest.
- The base has a two-component primer coating and outdoor powder finish that provide a protective barrier against corrosive elements, making it ideal for both private and public environments.
- Variability of shell colours and base finishes.
- Stackable up to 10 pcs.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
