

Cabinet with swing door

The cabinet with swing door is available in one width, 58 cm, and one depth, 30 cm. The cabinet fits together with all 30 cm deep wire and plex panels from String® System. It is visually pleasing to add a bolder element to your shelf, like a cabinet, which also give you a lot of extra storage. The door can be mounted on either side of the cabinet.

About the designer – String Furniture

For a number of years, the production of String® was non-existing. The years passed by and it was not until 2004 the brand revived. It was during this time String®, as we know the brand today, took form. The assortment was carefully revised and new features for the shelving system were designed and developed. The updated and now modern shelving system was here to stay! Over a night, String® was once again considered an obvious part of the timeless Scandinavian design style.

Product dimensions

W: 58 cm, H: 42 cm, D: 30 cm.

Package dimensions

W: 60,8 cm, H: 8,6 cm, D: 40,2 cm.
