LAUNCHES

IN BETWEEN CHAIR SK2

BY SAMI KALLIO

2013/14

The interplay between positive and negative space is central to In Between, Sami Kallio's chair design for &tradition. Its back and side panels provide a concrete shape and support, but forms are created equally by the gaps in between them. Kallio's expertise in traditional woodworking craftsmanship is evident in the chair. In Between is produced using two classical techniques; compression molding (making it light and thin, yet strong) and woodturning (a technique that uses a lathe to achieve greater detail).

Sami Kallio, with his solid grounding in the traditional woodworking techniques of Scandinavia and his eye for ingenious detail, has proven to be the ideal candidate to design the first wooden chair in &tradition's stable. The upholstered seat is the perfect addition to the wooden chair: it embraces modern lifestyles and long, cosy dinners around the dining table, without compromising the chair's light and elegant expression.

&tradition is a Danish design company established in 2010 with the founding principle being tradition tied to innovation. Our unique library of furniture and lighting spans from the 1930s to the present day and includes designs by internationally renowned designers.

Product category	Chair with armrest.
Production Process	The legs and the armrest are turned from solid oak or ash and the seat and side panels are formpressed from oak or ash veneer.
Environment	Indoor

Recycling & Disassembly

In Between SK1 & SK2

RECYCLING

The In Between chair is built to last, and we hope that your In Between will serve you for many years. The chair is made from solid wood and wood veneer, and can be easily separated from its base. All metal and wooden parts can be separated and delivered to a suitable recycling station.

SPARE PARTS

To purchase spare parts for your In Between chair, please write to our sales support team at info@andtradition.com with your query.

5 YEAR WARRANTY

&Tradition provides a 5-year warranty with every In Between chair, which covers faults which were present at the time of purchase, or which have occurred as a result of a manufacturing defect. The warranty is valid from the date stated on the original invoice.

DISASSEMBLY

Disassembling of In Between chair

1. To disassemble the In Between chair use an Allen key to loosen the screws holding the veneer panel in place.
2. Remove the veneer panel and unscrew the two screws located at the back of the seat.
3. Remove the gliders.

Disassembling of upholstered seat (SK2 only)

1. Unscrew the screws underneath the seat and remove the textile, padding and bushing from the wooden base of the seat.
2. Remove the textile, padding and bushing from the wooden base of the seat.
