# MAGINO

## STOOL

The acrylic magino stool is perfect as a nightstand, end table or stool with its integrated storage to hold magazines, books or records. Its curved legs and transparent body makes for a chic and simple versatile piece of furniture. It functions as a stool, side table and a magazine rack, without taking up tons of space. The acrylic is thick at 13 mm, lending to magino's graphic lines and durability (this piece is shatter-proof). Put the finishing touches on your space with this eye-catching piece of furniture.

- Made with 13mm thick acrylic, making it durable and shatter resistant
- Designed by karim rashid and won a housewares design award in 2006
- Functions as a sturdy stool or clear side table with built-in magazine storage
- Weight capacity 90kg (200lbs)
