

# PLANETA - MAGNETIC LIFTER

Adopted with new generation high energy magnetic material, it has the advantage of high attractive force, small in volume and light in self weight; easy operating and safe in operation. It is suitable for lifting, handling and pulling up of steel workpieces and raw material under normal temperature condition without making any mark to the workpieces.

## FEATURES

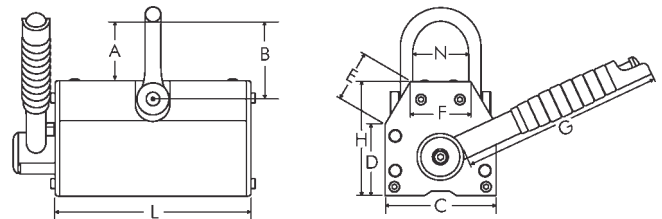

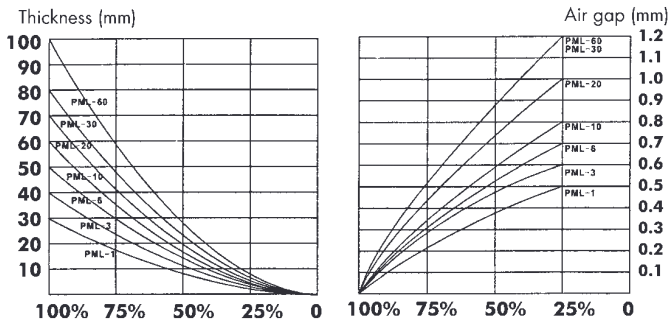

- » High safety factor 3.5:1
- » Good air gap feature, the rated plain load could still be attracted up even if the gap is smaller than 0.5 mm.
- » Easy operating long term attractive force stability.
- » According EN13155 Standard

**ON - MAG      OFF - DEMAG**

## ON/OFF SWITCH, EASY TO OPERATE

The magnet is activated by changing the lever from left to right. A safety device blocks the lever in MAG- Phase that hinders the accidentally switch to DEMAG.
