Drop Ship Product Files & Stock Check

HOW TO READ DROP SHIP PRODUCT FILES:

➢ SKU – Item Number
➢ Description/Item Name – This is the name of the Item
➢ Type – Product Type or Category
➢ Wholesale Price – Price for Retail Location to pay *Put this price on order forms
➢ MSRP – Suggested retail price for end consumer to pay *Do not put this price on order forms
➢ UPC – Universal Product Code
➢ Body (HTML) – Description of the item in HTML format for use when uploading file onto Retailer website, if loading onto Retailer website
➢ Image URL – Photo of item for use when uploading file onto Retailer website, if loading onto Retailer website

When uploading this file onto a website the UPC, Body (HTML) and Image URL columns are very useful fields to have.

If this will not be uploaded onto a website, these fields may be disregarded.

HOW TO CHECK STOCK ON DROP SHIP ITEMS:

➢ Stock can be checked by using the below websites per Brand
➢ If the item says 'Out of Stock' or does not appear on the website, then the item is currently unavailable for Drop Ship
➢ Best method for searching an item on website is to enter the SKU/Item Number into the 'Search' function at top left of website
