

# What to Expect

Typically, the following will take place:

1. Within the first several weeks of treatment the toenail will show a clear border between the infected and uninfected portion.
2. In the next several weeks the infected portion of the toenail will begin to become thinner and feel healthier.
3. At about the same time or soon thereafter the infected toenail may start to show dark streaks. These streaks are dead fungal elements and represent definite evidence that **ClearNails-pro** is working.
4. Over the next several months the nail will appear clearer and clearer as normal healthy nail grows out to replace the diseased nail. The length of time this process takes is a function of how fast the nail grows.

Topical 10 mL

# ClearNails-pro

LIQUID SOLUTION

ciclopirox ~ terbinafine ~ fluconazole

Fungicidal solution for onychomycosis  
Penetrates to the nail bed  
Average three month supply

All the benefits of the most powerful oral anti-fungals delivered topically without any of the risk.

A potent combination of ciclopirox, terbinafine and fluconazole in a patented keratin penetrating carrier system.

**Sold only by medical practitioners.**

ClearNails-pro {  
ciclopirox  
terbinafine  
fluconazole

This doctor invented combination of ciclopirox, terbinafine and fluconazole eliminates the entire spectrum of fungi and molds that cause onychomycosis (fungal nail disease).

The unique patented carrier system allows all three medicines to penetrate both the nail (nail plate) and the nail bed, attacking all the places fungus resides.

The topical application renders **ClearNails-pro** absolutely safe with no toxicity.

**ClearNails-pro** has all the advantages of the most powerful oral medication **without any of the risks.**

**Sold only by  
medical practitioners.**

THE ONLY TOPICAL PRODUCT THAT **PENETRATES** THE NAIL.

***“Until ClearNails-pro, I had never seen a cure of toenail fungus by ANY topical agent. I have been using ClearNails-pro successfully in numerous resistant cases of toenail fungus that have failed other therapies including oral therapy.”***

— MICHAEL MACDUFF, MD

DERMATOLOGIST & DEMATOHISTOPATHOLOGIST, BAKERSFIELD CA

***“I have found ClearNails-pro to be the most effective and safest form of therapy for onychomycosis (nail fungus). I treat every toenail fungus patient in my practice with this unique and wonderful therapeutic agent.”***

— JAMES A. ADAMS, MD

DERMATOLOGIST, BEVERLY HILLS, CA
