CHARGING EARPHONES AND CASE

- Return earphones to the case and close the lid, the earphones will start charging automatically.
- Plugin the charging cable into the USB-C charging port, the case will start charging automatically.

SAFETY AND CARE

- When not in use, power the headset off and store in the included protective carrying case.
- Battery performance will decrease when stored in extreme temperatures: below -10°C/14°F or above 45°C/113°F including direct sunlight.
- There is no replaceable/reparable parts in the headset. Disassembling it will void your warranty.
- These earphones are built to last as long as possible, but they are not waterproof. Exposers to excess moisture might void the warranty.
- Do not use around flammable gasses as fire or explosion may occur.
- Keep the device and packaging out of reach of children.

CLEANING INSTRUCTIONS

1. Remove ear tips from earphones
2. Take a cotton swab damp with a small amount of rubbing alcohol or soapy water. Swab the body of the earphones and ear tips. Note: Ear tips can also be submerged fully in rubbing alcohol or hydrogen peroxide
3. Allow the earphones and ear tips to dry completely
4. Install ear tips on the earphones, make sure they are attached securely

WARNING

Using headphones at high to moderate volumes for extended periods will result in permanent hearing damage. It is advised to keep the volume levels at medium to low at all times. Do not use when driving a car, cycling, operating machinery, or performing other activities that require hearing your surrounding sound.

It is advised to turn the volume on your device all the way down before connecting your headphones. Then increase the volume gradually until you reach a comfortable listening level.

TECHNICAL SPECIFICATIONS

- Technology: Bluetooth 5.0, A2DP, HFP, HSP, AVRCP
- Drivers: a 6mm graphene dynamic driver in each earbud
- Sensitivity: 104+/-3dB
- Frequency Range: 20Hz - 20kHz
- Impedance: 16ohm
- Microphone: MEMS mic (silicon microphone)
- Microphone Sensitivity: 42+/-3dB
- Microphone Frequency Range: 100Hz - 10kHz
- Charge Time: 1.5hours (earbuds) + 2hours (charging case)
- Case Charing Input: 5VDC
- Play Time: 8hours + extra 24hours with charging case
- Battery Type: Li-polymer (60mAh for earbuds, 500mAh for charging case)
- Wireless Communication Range: >10m (No obstacles in the surrounding)

MORE INFORMATION

- Colour Options: silver, gold
- Product Size: 59x49x27cm
- Weight: 4.7g for each earbud, 41.8g for charging case

FAQ

Q: Why the earphones have no sound when I first try them on / only one side has sound?

A: The earphones may shut down if the battery level is too low due to over-discharge protection. It can be reactivated by charging it for 4 hours. If there's still no response, touch and hold the touchpads for 2~3 seconds to activate the earphones manually. If there's still no response, use a piece of disinfecting wipe to clean the charging pins on the earphones and charging case, let it dry, and then charge it for another 1 hour. The earphones should now function normally. If there's still no response from the earphones, please contact us at support@goodaudio.biz for further investigation.
