

Bloodborne Pathogen Antiseptic Wipes

+ 70-gsm disposable towels are thick, tough, stretchable, and virtually indestructible compared to run-of-the-mill baby wipes or even adult washcloths.

+ Skin nurturing ingredients include:

- +** Natural aloe vera for moisturizing; and
- +** Vitamin E for aiding skin repair.

+ EWG VERIFIED™ for Hero Wipes' commitment to using safe ingredients, providing transparency, and engaging in quality manufacturing practices.

+ Log reduction test shows these wipes, infused with active level of ethyl alcohol, effectively kill 99.9% of germs that can cause bloodborne illness.

Hero Wipes® EMS is designed for emergency medical service and healthcare professionals. Complies with **OSHA's** Bloodborne Pathogens standard requirements. Also meets **CDC's** guideline for hand hygiene in healthcare settings.

Active Ingredient

65% Ethyl Alcohol

Other Ingredients

Aloe Barbadensis Leaf Juice (Aloe Vera), Citric Acid (Food Grade Preservative), Potassium Sorbate (Food Grade Preservative), Sodium Benzoate (Food Grade Preservative), Tocopheryl Acetate (Vitamin E), Water

• Durable and recyclable canister packaging option also available.
