

ANCHORED

Sure and Steadfast

Anchored from YM360 is a study that helps students and leaders find common ground within the faith, so that all of us are better prepared to interact with the ever changing ways of the world.

With multiple three-lesson units, we have spent time curating a variety of topics that help students better understand what they believe and why. Students are drowning in a sea of information, and desperate for the Church's help in determining what is true. In *Anchored*, they will discuss difficult topics that can be addressed with doctrinal and apologetical resources. And the good news is, students who have grown up in church will receive just as much help as students who have only recently come to faith.

Anchored is a study for those who are looking to find the wisdom of God in an age of confusion.
