

ARCHOIL AR6400-D FUEL SYSTEM CLEANER

TECH SHEET

ESSENTIAL MAINTENANCE FOR YOUR FUEL SYSTEM | FOR USE IN DIESEL ENGINES

AR6400-D is formulated to clean diesel engines and fuel systems. Even a brand new vehicle's performance will decline if not regularly treated with a fuel system and engine cleaner. Use AR6400-D to restore and maintain maximum performance and economy. Treat your fuel every 5,000 miles or every oil change to maintain a clean diesel fuel system and engine.

16oz (473ml) bottle
Treats between
12-25 gallons of diesel

FEATURES AND BENEFITS

- Optimized for diesel engines
- Cleans fuel system and injectors
- Reduces combustion chamber deposits
- Removes soot deposits from DPF/EGR/Turbo
- Restores optimum power and fuel efficiency

CLEAN FUEL SYSTEM AND ENGINE

AR6400-D uses detergents to remove gum, varnish and carbon deposits from the fuel system, injectors and engine helping restore power and fuel efficiency.

BREAK DOWN SOOT

AR6400-D also helps remove soot buildup from post combustion systems. Use AR6400-D to prevent or remedy blocked DPFs, dirty EGR systems and stuck wastegates and variable turbochargers, as well as associated drivability issues.

INCREASE POWER AND FUEL EFFICIENCY

Deposits in the fuel system and engine, as well as in the post combustion systems, cause drivability issues and reduce fuel economy and power. Use AR6400-D to refresh your diesel engine's performance.

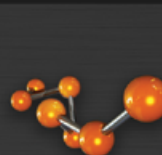

TREAT RATE

One bottle of AR6400-D treats between 12 and 25 gallons of fuel.
Use one bottle per 12 gallons of fuel for deep cleaning.
