

It is our
responsibility
to care for
and protect
what we
love...

Kuleana® Sunscreen helps protect your skin and our coral reefs. This new SPF 30 sunscreen is made only with locally grown plant-based oils, minerals and other reef-safe natural ingredients and does not contain the ecologically harmful chemicals found in most sunscreens. Hawaiian macadamia nut oil and Maui sunflower oil are among the nourishing ingredients that help moisturize the skin.

With a sheer, non-whitening zinc oxide formula, this gentle sunscreen lotion rubs in clear and can be worn with or without makeup – perfect to use daily with your Kuleana skincare products.

Because it is our responsibility, *our kuleana*, to protect ourselves, our keiki and our fragile marine environment for future generations.

- **UVA/UVB SPF 30 Protection**
- **Water resistant for 80 minutes**
- **Oxybenzone-free**
