

COMFORT-TECH PERFORMANCE PRODUCTS

- when performance counts -

VIBRATION DAMPENING PRODUCTS DESIGNED TO MAKE WORK LESS STRESSFUL ON YOUR BODY

Whether you are employed in construction or landscaping, or you spend your weekends working around your home, you are most likely all too familiar with the aches, pains, and numbness associated with power and hand tools. Comfort-Tech™ is devoted to the research, development, and production of products that make your work less stressful and tiring for your body.

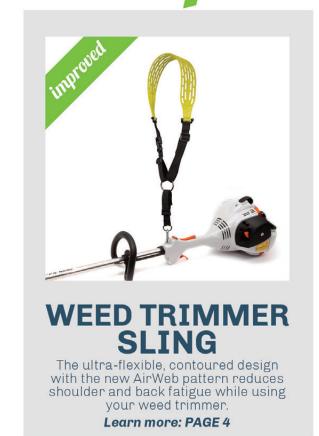

Comfort-Tech™ products dampen vibration and shock from your tools. These easy-to-install products enable you to work longer with reduced fatigue and backache while alleviate numbness, tingling, and soreness of arms and hands.

Comfort-Tech™ is proud to be an American company through and through. All products are made in USA, creating jobs and boosting our local economy.

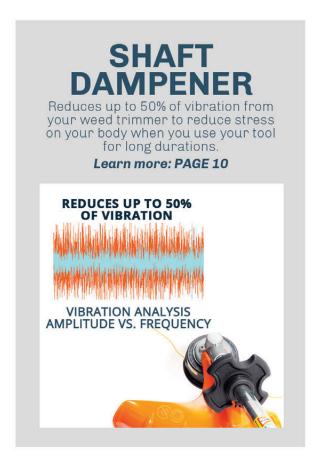

Comfort-Tech™ is dedicated to customer satisfaction and care. Please go to www.comforttechusa.com for more information, or contact an associate at 1-360-427-6031 or toll-free (US only) at 1-877-257-2761.

IMPROVED

Wedtrinner UTILITY SLING

• Reduce back and shoulder strain •

features

Reduces shoulder and body fatigue

NEW lighter, more flexible AirWeb pattern adds more comfort and air flow

Sling stays in place on shoulder

Helps balance tool

1-Click easy on/off

Adjustable, ambidextrous fit

USES: Weed trimmers / brush cutters

The Comfort-Tech™ Weed Trimmer and Utility Sling was designed with two goals in mind: amazing comfort and ease of use.

The contoured design of the shoulder sling keeps your power tool balanced while reducing body fatigue by distributing weight over your entire back. It features a new lighter and more-flexible AirWeb pattern that gives you even more comfort and air flow. The universal one-click easy on/easy off connection makes it a perfect fit for trimmers and brush cutters.

CONNECTS TO ALL TRIMMERS: TWO WAYS TO INSTALL! 24001 BLACK 24002 CAMO 24003 ORANGE 24004 GREEN 24005 YELLOW

SHAFT DAMPENER

• Cut out vibration at the source & prevent stress on your body •

The Comfort-Tech™ Shaft Dampener was designed for those who use weed trimmers or brush cutters for long periods of time. This product reduces overall vibration emitting from shaft-driven power tools. Simply attach the Shaft Dampeners directly onto the shaft of most power equipment and it will reduce continuous vibration by up to 50%. This reduction in continuous vibration will alleviate stress on your body, enabling you to work harder for longer.

Reduces up to 50% of felt vibration

Fits all standard 1" to 1.25" shafts

Installs in seconds

Waterproof, UV and solvent resistant

USES: Weed trimmers, brush cutters, and other shaft-driven power tools
