2018 FIREARM CATALOG

INDUSTRY-LEADING: PERFORMANCE • INNOVATION • CUSTOMER SERVICE PRODUCTS THAT WORK

FROM THE BEGINNING

From the very beginning, here at LimbSaver®, we have been committed to engineering the most advanced products utilizing the most state-of-the-art technology.

Over the years, we have become trailblazers in the industry, producing the most effective noise and vibration-dampening technology.

INDUSTRY LEADERS

Always pursuing advancement, we are constantly researching, testing, and evaluating technologies, materials, and designs to ensure that we produce the most effective sound and vibration-dampening products possible.

Well-known companies from around the world come to us to have their products tested, evaluated, and improved by our engineers.

We believe that the best products are born from hard work and determination.

AMERICAN MADE

Most of our products are made right here in Shelton, WA. For two decades we have been making the highest quality and best performing archery and firearms products in the world.

We have always employed teams of industry experts and engineers that design, test, and perfect every single product, ensuring that what is produced is the best in the world.

We are avid sportsmen, competition shooters, and hunters and we make products that we are excited to use.

“

FIVE STAR CUSTOMER SERVICE AND PRODUCTS:

When I contacted my gun manufacturer to ask about recoil pad recommendations, LimbSaver® was the only brand mentioned.

What most impresses me about this brand is that I have asked LimbSaver® three questions, once over the phone and the other two times through their Facebook page. Every time I had customer service experiences that would put major manufacturers to shame. It says something when the manufacturer of items between \$5 to \$200 provides better customer service than computer manufacturers with items priced in the thousands. It's as much for the customer service as the item's quality that the LimbSaver® AirTech® Slip-On deserves 5-stars.

Robert W.

HOLSTERS

PRODUCTS THAT WORK

WHAT GUNS DOES THE NEW CROSSTECH HOLSTER FIT?

Great question! We designed the CrossTech holster to work with virtually every handgun out there. With a hair dryer or a heat gun, the CrossTech holster can be form-fitted to the handgun of your choice in minutes.

IS THE CROSSTECH HOLSTER IWB COMPATIBLE?

Absolutely! The CrossTech holster converts in seconds from outside the waistband to inside the waistband and can be worn IWB, OWB, small of the back, and appendix carry. You'll love just how comfortable it is to wear, too!

HOW DO YOU CUSTOMIZE THE CROSSTECH HOLSTER TO FIT A HANDGUN?

Simply position the adjustment bolts on the holster to achieve the desired fit and angle and insert the handgun. The CrossTech holster will take the shape of your handgun over time.

You can speed up the process and get an even more custom fit by using a hair dryer on high or the low setting on a heat gun to heat the front panel of the holster. After a few minutes the Holster material will start to heat up and relax to form the custom fit for you handgun...

It really is that simple!

CROSSTECH HOLSTERS ARE UNIVERSAL AND REALLY COMFORTABLE

SEE CROSSTECHHOLSTERS.COM FOR INSTALLATION INSTRUCTIONS

NEW

CROSSTECHTM

HOLSTER

**+ CUSTOM FORM FIT
FOR YOUR PISTOL
AT HOME!**

+ COMFORT YOUR WAY

The CrossTech Holster is a form-fit holster that fits virtually every pistol and revolver made. It is designed to be ambidextrous, OWB & IWB. Thanks to its innovative design, the holster is flexible and comfortable enough to wear all day.

LIMBSAVER[®]

OWB
IN MINUTES

NEW

CROSSTECH™

HOLSTER CLIP ON

+ VERSATILE

One holster. That's all you need. It can be customized to fit all handguns. The CrossTech Clip-On Holster converts from **IWB to OWB**, from shallow to deep concealment, is ambidextrous, has adjustable cant, and can be worn in any at-the-waist carry position. **Clips are ultra strong and secure.**

+ FORM-FIT AT HOME

From full frame to subcompact and semi auto to revolver, the CrossTech Holster can be **easily customized** at home to fit any handgun.

The **Adjustment Bolt System** allows you to change the form of the holster. Over time, the holster will form to the shape of your pistol. For a faster fit, a hair dryer or heat gun can be used to temporarily heat and soften the material for a custom fit.

+ COMFORTABLE

The CrossTech Holster is comfortable enough to wear all day, and reliable enough to be the holster you choose to use for daily carry.

It is made out of a **flexible material** that is soft enough to eliminate pinching, pressure points, and uncomfortable digging in associated with hard-shell holsters, yet stiff enough to ensure proper trigger guard.

THE SECURE SOLUTION FOR
MAXIMUM
ACCESSIBILITY

NEW

CROSSTECH™

HOLSTER BELTED

+ BELTED

When you are hunting in the bush and encounter something unfriendly, you want to have your sidearm **easily accessible**, not under layers of coats and camouflage.

The CrossTech Holster comes in a belted version that has been specifically designed for hunters and outdoorsmen who need to have their firearm securely held on the outside of their clothing.

The holster belt has an easy-to-use buckle which makes putting on and taking off your handgun a cinch. The adjustable belt can be positioned for right or left hand use.

Available with a durable 1" or a 1.5" woven-polyester belt.

Belt is adjustable. Maximum length: 65"

+ SECURITY

The CrossTech Belted Holster has an optional **Secure Strap** that wraps around the top of the handgun and snaps in place. The Secure Strap will ensure that the handgun stays right in place until you need it.

+ CUSTOM FORM-FIT AT HOME

From full frame to sub-compact and semi-auto to revolver, the CrossTech Holster can be easily converted at home to fit any handgun.

The **Adjustment Bolt System** allows you to change the form of the holster. Over time, the holster will form to the shape of your pistol. For a faster fit, a hair dryer or heat gun can be used to help the holster take proper shape.

LIMBSAVER

RECOIL PADS

TESTED AND APPROVED:

I don't write very many reviews, but this AirTech® recoil pad warrants one. I have a savage model 111 .300 win mag that I use hunting. I'd call it my 3 shot gun, because I could shoot it 3 times before it would hurt my shoulder to the point that it would be stiff for a couple of days. I had surgery on my shoulder a couple of years ago.

I was skeptical of the claims this product had on their website to say the least. I mounted this pad on my stock and took it to the range. First shot was incredible, the recoil was there but not painful. It went from being kicked by a mule to a push. I went through 20 rounds in half an hour with no pain or stiffness in shoulder.

Bryan K.

PRODUCTS THAT WORK

I HAD TO GIVE UP SHOOTING BECAUSE OF SHOULDER PAIN, WILL YOUR PADS HELP?

While we do not know your personal situation and cannot make medical claims, we can guarantee you will feel a huge difference when shooting with our recoil pads.

AirTech® Recoil Pads provide up to 70% felt recoil reduction for a comfortable, flinch-free shooting experience. For many people, this means a renewed ability to enjoy shooting their rifles and shotguns. We have had countless people say that they can now shoot all day without bruising.

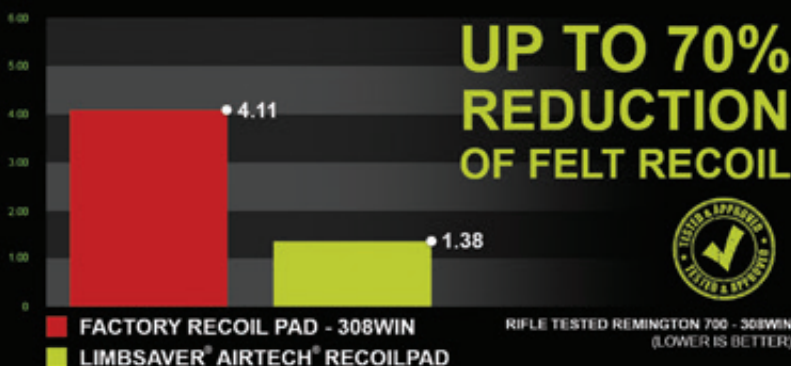

We encourage you to put our AirTech® pads to the test and feel the difference yourself.

CHOOSE AIRTECH® FOR UNMATCHED COMFORT

I'VE HEARD THAT AIRTECH PADS HELP WITH TIGHTER GROUPING, IS THAT TRUE?

Absolutely! Our AirTech® recoil pads incorporate anti-muzzle jump technology for faster target re-acquisition. The recoil pads help increase accuracy of follow-up shots, and you'll enjoy increased control for maximum stability.

In addition, the less felt recoil and pain you experience the better you will shoot. If you can tame felt recoil, you will find yourself flinching less and shooting more consistently.

AIRTECH[®] PRECISION-FIT

+ PROTECTION

Give your shoulder a break! AirTech[®] recoil pads offer premium protection for your shoulder so you can enjoy a day of shooting without the usual discomfort and bruising.

They feature **advanced atmospheric chambers** and utilize **NAVCOM[®]** (Noise and Vibration Control Material) technology to **reduce felt recoil by up to 70%.**

+ ACCURACY

AirTech[®] pads help to increase your accuracy by giving you a stable shooting platform that grips to your shoulder and stays in place even in the rain. They incorporate **anti-muzzle-jump technology** for quick and accurate follow-up shots. Also, by reducing felt recoil and pain, you will be less likely to flinch, which will make you a more consistent shooter overall.

**ATMOSPHERIC
CHAMBERS**

+ PRECISION-FIT SIZING

AirTech[®] Precision-Fit Recoil Pads are designed to fit specific gun stocks. Models are available for most popular guns and stocks with more being added each year.

AirTech[®] Precision-Fit Recoil Pads are 1-inch thick.

LIMBSAVER[®]

RECOIL PADS

#1 SELLING RECOIL PAD

TESTED AND APPROVED:

The Mosin Nagant rifle is notorious for its heavy recoil, which isn't mitigated at all by the metal butt pad. The LimbSaver® AirTech® Small Slip-On fits perfectly on Mosin Nagant 91/30. The result is tremendous. Felt recoil becomes easily manageable. After installation I put over 100 rounds through the rifle without any shoulder pain, bruising, or soreness. It made the rifle an absolute pleasure to shoot.

G. R.

MY RIFLE STOCK DOES NOT MATCH UP WITH ANY OF YOUR TEMPLATES. HELP!

There are tens of thousands of stocks on the market, which makes it impossible to provide a Precision-Fit recoil pad for every one. Though we work hard and come out with new pad sizes every year, there will inevitably be stocks that we don't specifically make a pad for.

The good news is we have another AirTech® option. AirTech® Slip-On Recoil Pads come in 4 sizes that are the perfect, easy-to-install option for those stocks that do not match our Precision-Fit templates.

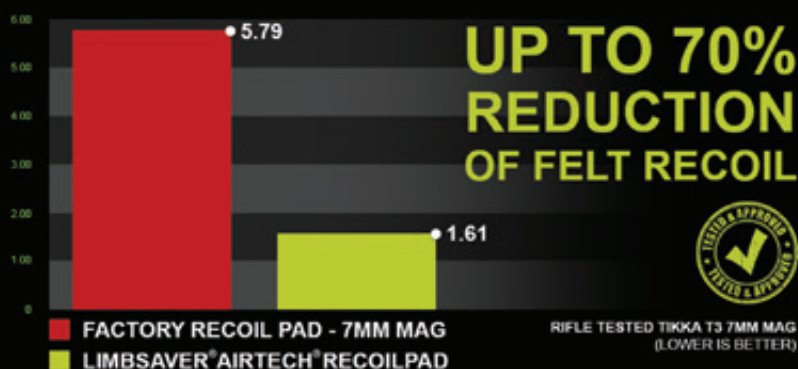

DO SLIP-ON VERSIONS OF YOUR PADS WORK AS GOOD AS THE PRECISION-FIT PADS?

Definitely! AirTech® Slip-On pads provide the same amount of felt-recoil reduction (up to 70%) as our Precision-Fit pads, with the added bonus of being a breeze to fit and install. We'd say that's a win-win!

CAN I INSTALL THE SLIP-ON OVER ANOTHER BUTT PAD?

You can, but we do not recommend it. For best results, always remove your existing butt pad. Some stocks come with plastic, low-profile end-caps which are not necessary to remove.

If you leave your existing recoil pad installed, this pad will add more to your stock's length of pull, and it may cause the AirTech® Recoil Pad to shift during use.

SLIP-ON SIZING CHART

AIRTECH[®] SLIP-ON

+ PROTECTION

Say goodbye to sore shoulders and bruising associated with recoil. The AirTech[®] Slip-On Recoil Pads, with **advanced atmospheric chambers** and **NAVCOM[®]** technology, **reduce felt recoil by up to 70%.**

+ ACCURACY

AirTech[®] pads grip to your shoulder and give you a flinch-free, stable shooting experience that helps tighten up your groups. They also incorporate **anti-muzzle-jump technology** for quick and accurate follow-up shots.

Additionally, by reducing felt recoil and pain, you will be less likely to flinch which will make you a more consistent shooter overall.

+ EASY INSTALLATION

The easy-to-fit and easy-to-install Slip-On AirTech[®] Recoil Pads are available in four sizes to **fit virtually all stocks**. Just slip it over the butt of your bare firearm stock to get legendary shoulder protection.

LIMBSAVER[®]

RECOIL PADS

TESTED AND APPROVED:

The LimbSaver® Classic Precision-Fit is a nice upgrade for the Maverick 88 as the stock recoil pad is not very good. It was OK shooting low recoil OO buckshot but I actually bruised my shoulder shooting LE 12 pellet OO rounds. After replacing the stock recoil pad with a LimbSaver® one, I shot 20 rounds of LE OO again and my shoulder was not bruised.

Tony

PRODUCTS THAT WORK

WHAT ARE THE BENEFITS OF LIMBSAVER® RECOIL PADS?

The first thing you'll notice after installing a LimbSaver recoil pad is that the kick of your firearm will feel less brutal. LimbSaver® pads reduce up to 70% felt recoil reduction to give you a pain-free sporting day for the whole family.

They also incorporate anti-muzzle jump technology for faster target re-acquisition. Our recoil pads help tighten groups and increase accuracy of follow-up shots, and you'll enjoy increased control for maximum stability.

WHAT MAKES LIMBSAVER® PADS BETTER THAN THE NEXT BRAND?

Performance. When it comes to recoil reduction, our recoil pads consistently outperform every other brand pad on the market. When side by side testing is done, LimbSaver® dominates.

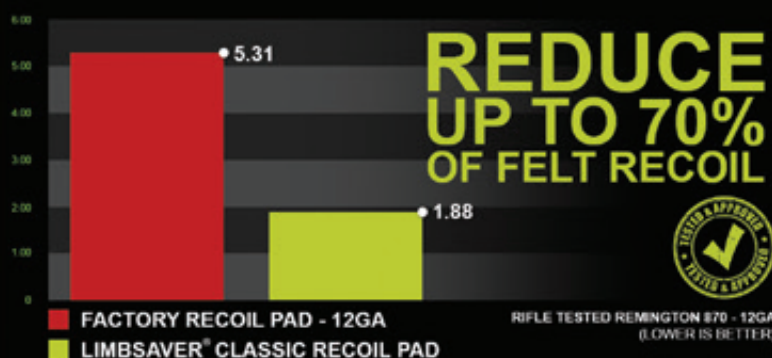

Try out our recoil pads and you'll feel the difference on the very first shot... your shoulder will thank you.

I'M NEW TO LOOKING AT RECOIL PADS, WHAT ARE MY OPTIONS?

Precision-Fit Recoil Pads: Each Precision-Fit model is custom designed to fit specific firearm models.

Slip-On Recoil Pads: These are perfect for those hard-to-fit stocks. Available in 4 sizes to fit virtually all rifles, shotguns, muzzleloaders, and crossbows.

Grind-to-Fit® Recoil Pads: No other recoil pad is this customizable. They can be tailored to perfectly fit your stock using a belt sander.

WHY WOULD I CHOOSE A LIMBSAVER® GRIND-TO-FIT®?

We provide our customers with some unique recoil pad styles that are offered exclusively in our Grind-to-Fit® category. Many shooters prefer the specialized designs, such as the Low Profile or Speed Mount, due to their different needs.

Grind-to-Fit® Recoil Pads are also great for those hard-to-fit or custom stocks that we may not have Precision-Fit models for. No other recoil pad is as customizable as our Grind-to-Fit® Recoil Pads. They can be tailored to perfectly fit your stock using a belt sander. We recommend that professional shops modify and install these pads.

Please see the back of this catalog for templates.

LOW PROFILE GRIND-TO-FIT®

+ DESIGN

The Low Profile Grind-to-Fit® Recoil Pad is only **5/8-inch thick** and is great for shooters who want a **minimal increase to length of pull**.

It also features a **curved design** for **fast and easy shouldering**.

+ PROTECTION

This pad **reduces felt recoil by up to 60%** for a more comfortable, flinch-free shooting experience.

+ PERFECT FIT

Like all LimbSaver® Grind-to-Fit® Recoil Pads, this model can be **altered to perfectly fit** your gun stock.

LOW PROFILE GRIND-TO-FIT®
10544 MEDIUM PLUS

SPEED MOUNT® GRIND-TO-FIT®

+ DESIGN

The Speed Mount® Grind-to-Fit® has a **sloped design** that **makes rapid shouldering easier** and is perfect for sport shooters.

+ PROTECTION

Your felt recoil will be reduced by up to 70% when you install this pad so you can shoot all day, pain free.

+ PERFECT FIT

Like all LimbSaver® Grind-to-Fit® Recoil Pads, this model can be **altered to perfectly fit** your gun stock. Pad is 1-inch thick.

SPEED MOUNT GRIND-TO-FIT®

LIMBSAVER®

SLINGS

FLEX

EASY ON/OFF

COMFORTABLE, ADJUSTABLE GRIP

IF I WANT COMFORT, DON'T I WANT A PADDED SLING?

While padding can feel soft to the touch, it doesn't necessarily mean comfort. What makes a sling uncomfortable is pressure points and incorrect weight distribution. Instead of simply covering a poorly designed sling with padding to make the consumer think they are buying a comfortable sling, we are actually DESIGNING a better sling.

The webbed design of our slings flexes and molds to the contours of your shoulder and strategically distributes the weight of your rifle over a larger surface area. This design eliminates pressure points and makes your equipment feel lighter.

UNIVERSAL QUICK DETACH

We are really excited about the new Universal Quick Detach mechanism. We created a secure, precision locking system that you can rapidly lock onto your rifle with just the press of a pin. It cannot be unlocked without intentionally doing so, but when you do want to take the sling off, it's as simple as firmly pressing the pin out with a coin or other hard flat object.

Universal Quick Detach

simply push to lock and unlock

TESTED AND APPROVED:
I swapped out my old neoprene sling for the Kodiak-Air and I was definitely impressed. My rifle has never felt so secure on my shoulder before. I hiked a lot of steep terrain and was very pleased with the lack of shifting and re-adjusting I had to do. Additionally I really appreciated the hand grip feature, it provided a very comfortable place to grip for those instances when I needed to secure the rifle a little more. I Definitely recommend this sling.

J. Hart

KODIAK-AIR FIREARM SLING

+ COMFORT

The revolutionary NAVCOM® **Air-Web Pattern** will keep you comfortable and cool as it evenly distributes the weight of your firearm on your shoulder. It features an **extra flexible** design which molds and bends to the contours of your body.

+ ALL WEATHER, NO SLIP

The durable, no-slip **NAVCOM® material** keeps your firearm from slipping and is suited for use in **all weather conditions** - from summer heat (with breathable Air-Web Pattern), to rain, to freezing temperatures.

+ CONTROL

The ergonomic, **adjustable hand grip** provides custom position, comfort, and control. The grip locks securely into place.

+ UNIVERSAL QUICK DETACH

The **Universal Quick Detach System** is an industry game changer. The Universal Quick Detach locks securely onto your firearm with the simple press of the pin. Press pin to release. The Universal Quick Detach is made out of high-strength composite that is **extra strong** and the stainless steel locking rod **will not rust!**

+ HD CAMO STRAP

The high-strength, woven-polyester webbing is now available in **high-definition camouflage patterns**. The popular camo patterns help you stay blended into your surroundings.

LIMBSAVER®

SLINGS

PRODUCTS THAT WORK

WHAT MAKES A SLING COMFORTABLE?

Comfort is all about weight distribution. LimbSaver® Kodiak slings are all designed to evenly distribute the weight of your firearm over your entire shoulder so that you don't have pressure points or an off-balanced load.

The details are what makes our Kodiak slings stand out. They are made out of our proprietary NAVCOM® (Noise and Vibration Control Material) which effectively grips to your shoulder to keep the sling in place. Designed into the structure is an integrated hand grip so you have somewhere to comfortably rest your hand when extra control over your firearm is needed.

TESTED AND APPROVED!
The Kodiak-Lite is great because it doesn't slip around when I walk with my rifle and I have my hands full of other gear. It's more comfortable than other slings I've used. Would buy again.

LIMBSAVER®

TACTICAL ACCESSORIES

TESTED AND APPROVED:

I debated a number of different butt pads for a week or so. After reading reviews like "it isn't a LimbSaver, but it's pretty nice", I finalized my purchase on this LimbSaver AR-15 Recoil Pad. I am more than impressed, and glad I spent the money on this. The padding is fantastic - super soft, yet firm enough at the same time. The length it gave me was ideal. Installation was pretty simple, even though I have seen some reviews that say it was a little challenge. I would buy this again.

Chadima F.

PRODUCTS THAT WORK

I'VE USED AIRTECH® PADS ON MY HUNTING RIFLES, ARE YOUR TACTICAL PADS AS GOOD?

Our tactical recoil pads use the same technology as our Classic and AirTech® recoil pads. They provide a comfortable shooting platform that reduces up to 60% of felt recoil. This is especially crucial for high caliber rifles and magnum cartridges which can leave your shoulder bruised and sore.

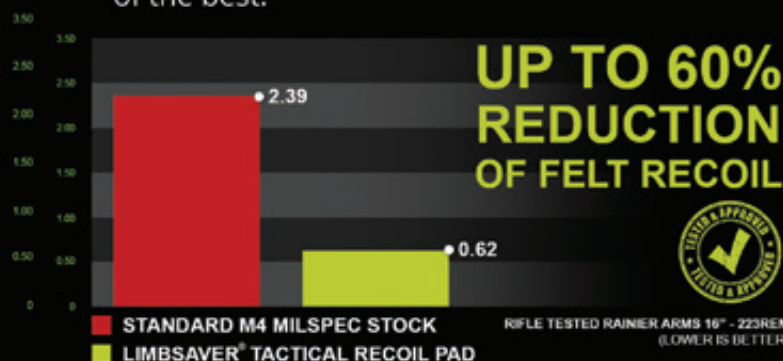

Our Tactical Recoil Pads also incorporate anti-muzzle jump technology for faster target re-acquisition. The recoil pad helps to increase accuracy of follow-up shots, and you'll enjoy increased control for maximum stability and tighter groups.

They are made from our proprietary NAVCOM® technology (Noise and Vibration Control Material), which effectively absorbs a wide range of frequencies to dissipate energy and vibration.

ARE LIMBSAVER® TACTICAL PRODUCTS POPULAR?

Our tactical accessories are becoming increasingly popular. There is a reason that our tactical snap-on pad and precision-fit pad for Magpul® stocks are both rated 4.8 out of 5 stars on Amazon.com - it's because they are an unbeatable quality.

Law enforcement, military, private security, and many other professional groups use our products everyday. We are proud to be trusted by the best of the best.

AR-15 RECOIL PAD

+ FIT

The LimbSaver® AR-15 Recoil Pad **securely installs** onto most six-position AR-15 / M4 / mil-spec tactical stocks. Pad is 3/4-inch thick.

+ PROTECTION

The AR-15 Recoil Pad **reduces felt recoil by up to 60%** while **controlling muzzle jump**.

The recoil pad helps **increase accuracy of follow-up shots**, and you'll enjoy increased control for maximum stability.

LIMBSAVER®

PRODUCTS THAT WORK

TRY OUT A LIMBSAVER® PAD. YOU WILL NOT REGRET IT.

“

TESTED AND APPROVED!

Before purchasing this product, I was skeptical about the claim that it would reduce the felt recoil by 60%. However, after trying this product on my Mossberg 590A1, I must say that the recoil pad does make a world of a difference. Previously, when shooting the shotgun, I could not shoot more than about 25 rounds of bird-shot without feeling some pain in my shoulder since the Magpul® Stock has a plastic buttplate. Now, I can shoot over 30 rounds of 3 inch Magnum loads without feeling any affects (and no, I am not exaggerating). I would definitely recommend this product to anyone that uses a Magpul MOE Carbine Stock on their shotgun. You will not regret it.

Timothy Y.

“

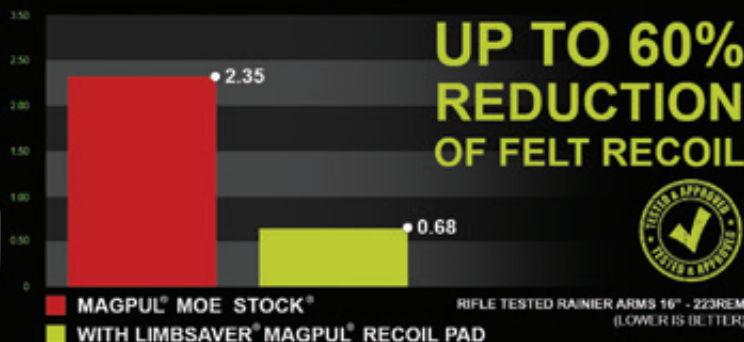

TESTED AND APPROVED!

Makes shooting my 7.62x39 AR15 more comfortable on the shoulder. I would definitely recommend this pad to anybody using the Magpul® MOE stock on their rifles.

It is definitely an improvement over the standard back of the stocks and simply offers a better shooting experience.

Rags

”

MAGPUL® PRECISION-FIT PAD

+ CONTROL

Get a stable shooting platform with the LimbSaver® Magpul® Precision Fit Recoil Pad. This pad incorporates **anti-muzzle jump technology** for faster target re-acquisition and helps increase accuracy of follow-up shots. You will enjoy heightened control for maximum stability.

Durably built to be used outdoors in all harsh environments, the no-slip surface stays in place, even in the rain.

+ FIT

Fits Magpul® Stocks including STR®, ACS™, ACS-L™, and UBR®. Also fits MOE® (MAG400) and Com/Mil-Spec CTR® (MAG310). Pad is 1/2-inch thick.

MAGPUL® PRECISION FIT

10025 Black

+ PROTECTION

Protect your shoulder from recoil. Made from our proprietary NAVCOM® technology (Noise and Vibration Control Material), the Magpul® Precision Fit Recoil Pad **reduces up to 60% of felt recoil** for comfortable shooting.

TAC-10

- + **FEATURES:** The Tac-10 Adjustable Stock is designed as a drop-in replacement for AR-15 / M4 carbine stocks. It **fits commercial and mil-spec sized receiver tubes**. **Does not fit A1/A2 sized tubes.*

The Tac-10 buttstock features **two unique dual-integral receiver mounting points** for standard quick-detach hardware (*not included*), perfect for right or left hand use. It also offers **built-in slots for standard sling attachment**.

The Tac-10 gives you patented **10 micro-adjustment positions** for precise length-of-pull.

- + **PROTECTION:** The built-in **LimbSaver® recoil pad** **reduces felt-recoil** and gives you a comfortable and stable-shooting platform.

TAC-10

12301 Black

SW TACTICAL SLING

- + **COMFORT:** The lightweight **contour design** is made out of our proprietary material which helps to **evenly distribute the weight of your firearm** over a larger area, reducing shoulder pain and fatigue.

- + **FEATURES:** The sling has two military-grade quick-connect clasps for **single and dual point connection**, as well as a **quick release clip** for easy on-off.

It utilizes **high-strength webbing**, is **fully adjustable**, and is intended for either **right or left hand use**.

PRODUCTS THAT WORK

DOES THE SHARP SHOOTER X-RING REALLY TIGHTEN GROUPS?

“

TESTED AND APPROVED!

I've been building accuracy over the last year in a very old military surplus rifle and had it shooting consistent sub 1" groups at 100y. I decided to try a LimbSaver barrel dampener and I was glad I did! I changed nothing else about the rifle other than adding the barrel dampener. I started with it close to the stock, and shooting 3 shot groups moved it forward about an inch at a time until I was nearly at the front sight. Had I read the instructions correctly I would have started there to begin with. From about halfway to that position on, groups shrank. Once I got it where it is, I was shooting 1-2 hole groups max 1/2" at 100y, and I can do it all day long. I never thought anything like this could make such a difference, but it does... I will be buying more of this product, I have become a believer.

David G.

”

SHARP SHOOTER X-RING TIGHTENS GROUPS

WITHOUT

WITH

“

TESTED AND APPROVED!

I got my wife a 20 gauge shotgun that was lighter in weight but the recoil was too much for her. She was bruised after the first round of sporting clays. The LimbSaver® Shooting Pad was a lifesaver. I thought I'd have to get her a different gun but this did the trick. It absorbs the recoil and there's no bruising.

David Z.

”

SHARP SHOOTER X-RING

+ TIGHTER GROUPS

The LimbSaver® Sharpshooter X-Ring barrel dampener allows you to tune and minimize the barrel harmonics of your rifle, thereby **improving accuracy**.

Simply adjusting the position of the X-Ring on the barrel to its "sweet spot" **allows the user to achieve sub-MOA (minute of angle) groups** with factory ammunition. With the X-Ring, you can dramatically affect the accuracy of your rifle without the need to hand load your own ammunition!

BULL BARREL

STANDARD

+ FITTING

Available for standard & bull barrels. Bull barrel size also works on scoped slug shotguns.

Bull Barrel Size Fits 3/4" - 1 1/8" Barrel Diameter

Standard Size Fits 1/2" to 7/8" Barrel Diameter

SHARP SHOOTER X-RING

12051 Standard - Black

12053 Standard - Tan

12052 Bull Barrel - Black

PROTECTIVE SHOOTING PAD

+ **PROTECTION:** The Protective Shooting Pad **reduces felt recoil by up to 60%** and helps **prevent pain while shooting**. It is especially useful for extended shooting sessions, or when using a variety of firearms without recoil pads.

Our shooting pad is ideal for individuals who are especially sensitive to the fierce kickback of their firearm as it **can be used in conjunction with a LimbSaver® recoil pad for maximum recoil reduction**. Pad is .37 inches thick.

+ **EASY TO INSTALL:** Simply slip it over your shoulder, clip it on, and fire away! It is built for use in **all weather conditions**, so use it rain or shine. **Straps adjust for a secure fit**. The pad is reversible for right or left-handed shooters.

PROTECTIVE SHOOTING PAD

90102 Black

90100 Additional Protective Shooting Pad Insert (for extra padding)

SHOTGUN SIGHTS

These shotgun sights are **perfect for rapidly acquiring your target**. These ultra-bright sights utilize **fiber-in-fiber technology**. They feature super bright red-in-green fiber optic colors which shine from dawn to dusk.

+ **Magnetic:** Fits on most rib shotguns barrels. Available in micro 0.078 fiber size.

+ **Adhesive:** Fits most smooth or rail shotguns. It is lower profile and is available in 0.12 fibers with adhesive mount.

SHOTGUN SIGHTS

12241 Adhesive Mount 0.12

RIFLE LUBRICANT PEN W/ NEEDLE

+ **PROTECTION:** This Rifle Lubricant is specially formulated to **protect your gear** in the harshest of conditions. The **needle applicator** allows you to get the oil in the tightest spots with **no mess**, saving you cleanup and money.

+ **SAFE:** Rifle Lubricant is **non-toxic, non-flammable, 100% odorless, and protects your gear so it lasts longer**. It keeps your firearm shooting smoothly and helps prevent rust.

RIFLE LUBRICANT PEN W/ NEEDLE

LIMBSAVER®

PRODUCTS THAT WORK

MY PISTOL BEATS MY HANDS UP, WILL YOUR GRIPS HELP?

For sure, you will have a much more comfortable shooting experience when you use our Pro Grips. You will be able to shoot more rounds during practice without experiencing the pain that you're probably used to.

WHAT ABOUT GRIP?

Every pistol and every hand is different. LimbSaver® Pro Grips allow for more hands to get a better grip on more guns. The non-slip NAVCOM® material helps you maintain grip and control while it isolates your hand from recoil.

**GREATLY
REDUCES
HAND SHOCK**

■ 10MM POLYMER HANDGUN

■ 10MM POLYMER HANDGUN WITH LIMBSAVER GRIP

TESTED AND APPROVED!

I sustained a thumb injury and shooting my Glock 27 became so painful that after less than 20 rounds I would hate shooting it, and my thumb would hurt for up to a week afterwards. I ran across this at a local store and was somewhat skeptical about it, but figured for this low of a price, why not give it a try. I can only say that this totally exceeded my expectations. I went to the range yesterday and put over 200 rounds through it with ZERO pain, and have none today either. To say I am now a fan would be a huge understatement.

Gary H.

PRO GRIPS

+ COMFORT

The Pro Handgun and AR-15 Rifle Grips are designed to provide **maximum reduction of muzzle flip** and **felt recoil** for a smoother, more accurate shot.

Multiple impact nodes are located on the inside of the grip, **isolating the shooter's hand** from the firearm and reducing the pain and discomfort associated with handgun recoil.

It features a protection lip that **shields your thumb** from the hammer guard contact point during recoil.

+ FIT

The Pro Grip has a **universal-fitting stretch design** that conforms to finger grooves and ensures it stays in place during use.

Pro Grips are not recommended for handguns with grip safeties.

LIMBSAVER®

RECOIL PAD TEMPLATES

WHY WE RECOMMEND USING TEMPLATES:

Many manufacturers modify their stock dimensions yearly, making it difficult for us to keep one specific model available for one specific manufacturer. You may also have a less common gun that we do not list in our Recoil Pad Reference Guide, but you may find a pad that works great. For those reasons we have provided these templates to help you match your buttstock.

OTHER OPTIONS:

If you have a synthetic stock and a **Precision-Fit Recoil Pad** is not possible, you can utilize our **SLIP-ON Recoil Pads** which deliver the same felt recoil reduction as the Precision-Fit pad. Removal of existing pad is recommended, but not required. You may also utilize our **GRIND-TO-FIT® Recoil Pads**, but these may require a visit to your local gunsmith.

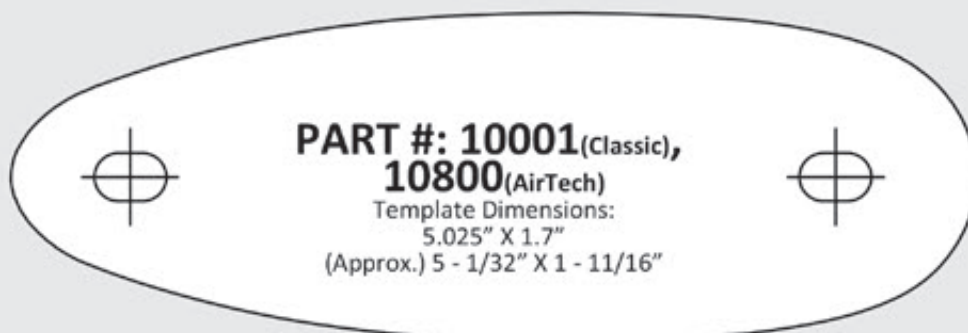

TEMPLATE INSTRUCTIONS:

Simply remove the existing recoil pad or plate from your butt stock by unscrewing. If your recoil pad is glued on, it may require gunsmithing.

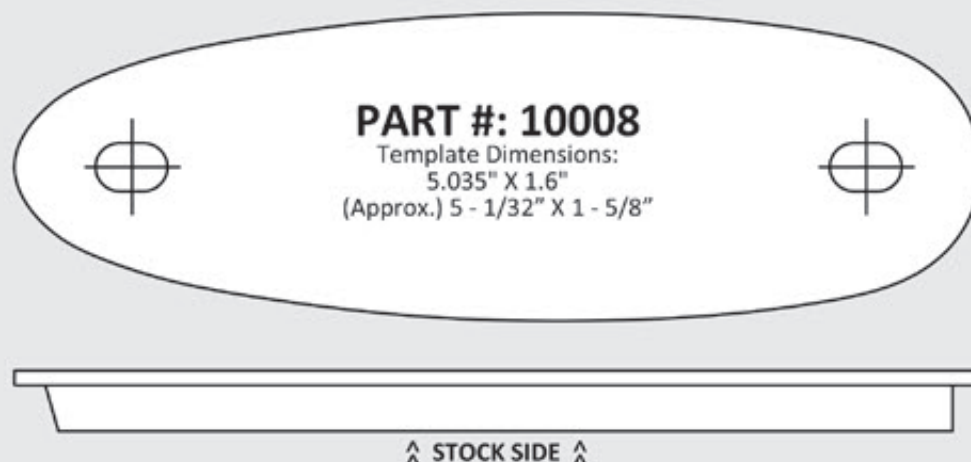

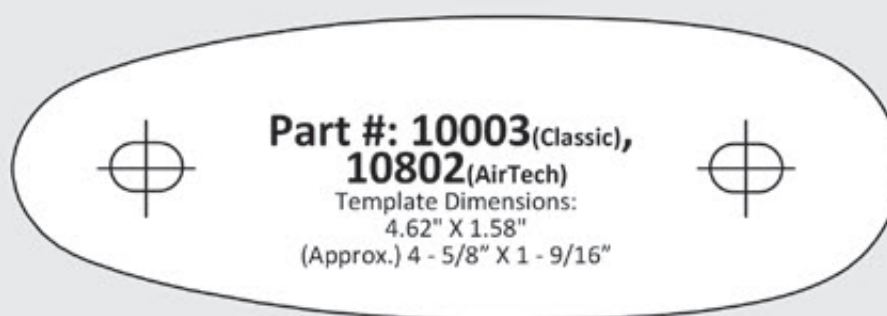

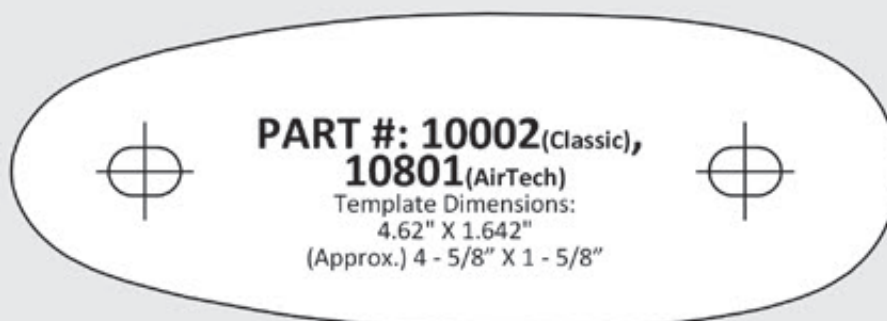

Place the gun stock on top of each template until you have found a match. Cut template out and place on stock to check for perfect fit and to determine screw hole location. If the screw holes do not line up, you can slot or elongate the screw holes on the bottom of our plate an additional 3/16" or more towards the heel or the toe and 1/16" towards the center of the pad (use a Dremel® tool with sanding attachment) to match the holes in your stock. This is regardless of wood or synthetic stocks. Please note: This only refers to the template recoil pads that are not already elongated or slotted.

Once a match is found, the product number will be on that specific template so you will know which one to order.

PRECISION-FIT RECOIL PAD TEMPLATES

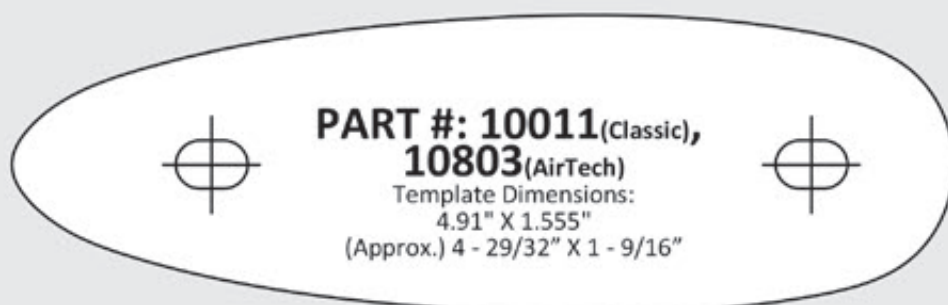

PRECISION-FIT RECOIL PAD TEMPLATES

- + This pad fits a specific make of synthetic stock. To accomplish as accurate a fit as possible, many of the synthetic recoil pad plates have profiles that snap inside the cavities of the stock. While most plates can be altered by grinding off protruding plastic on the plate, this plate CANNOT be altered.

GRIND-TO-FIT® RECOIL PAD TEMPLATES

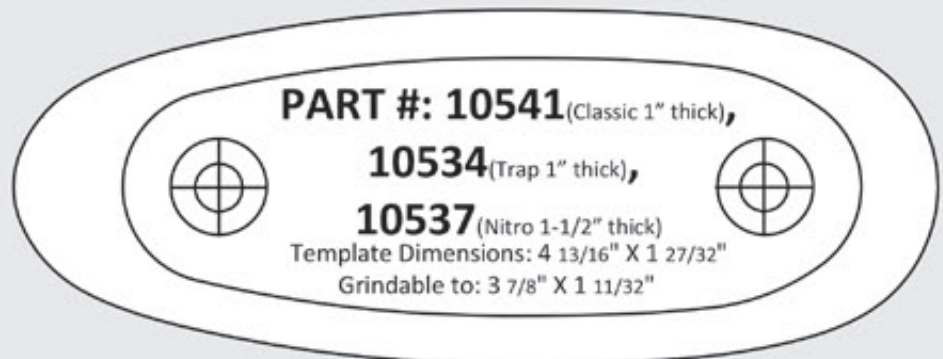

About Grind-to-Fit® Recoil Pads

The following Grind-to-Fit® Recoil Pads are shown with two profile lines. The outer line is the actual size of the pad. The inner line is the "Max" Grind line. In order for our technology to function properly, the interior air chamber must remain intact with enough wall thickness to contain the pressure during the firing of the weapon. By not grinding past this line, you ensure your pad will be in perfect working order.

To determine which Grind-to-Fit® Recoil Pad is right for you, remove your existing pad, and place your flat stock on the templates. Choose the pad that shows the full outer line of the template, and none of the interior line. For further instructions, go to www.LimbSaver.com.
