

LOOKBOOK AW2019

ELIZA BAUTISTA

ABOUT US

Eliza Bautista is a UK jewellery designer creating contemporary and stylish jewellery pieces for the discerning customer. Offering affordable luxury and everyday elegance she bridges the gap between fast fashion and expensive fine jewellery.

Offering high quality, all her pieces are made with 925 sterling silver as base and finished in rhodium, gold vermeil or rose gold vermeil. Gemstones and diamonds are a major feature of her designs and she provides the highest quality and size for this price point.

Eliza is not only a designer and goldsmith but also an NHS health professional. As an Occupational Therapist working with people with physical disabilities, she supported them in regaining independence through arts and crafts as a means of expression and development of physical and mental functions. Her belief in the therapeutic powers of creativity invigorated her passion for crafts leading her to set up her own studio. She continued her development in silversmithing for jewellery and stone setting at Central Saint Martins in London.
