

Convenient & effective degreaser for on-site, in-the-field and MRO operations.

De-Solv-it® Contractors Solvent

FEATURES/BENEFITS:

Powerful	Removes oils, greases, bitumen, tar, adhesive residues, silicon sealants, wet paints & inks
Versatile	For use in Manufacturing, Engineering, Maintenance, Repair & Overhaul applications; Residue-free finish on surfaces
No chlorines	Non-chlorinated, non-aromatic, no special breathing apparatus required
Convenient	Handy sized trigger spray for quick & simple application

USE:

Used neat at ambient temperatures, by hand, in parts washers or dip tanks.

For removing oils, greases, bitumen, tar, wet paints, adhesives and sealants from plant, equipment and components.

APPLICATIONS:

Manual cold cleaning processes such as parts washing and dip cleaning, hand swabbing and degreasing, surface preparation and general maintenance cleaning. For difficult contaminants allow a suitable period of contact time to penetrate and soften the soil before removing.

Compatible with most metals, plastics, rubbers and polymers.

PRECAUTIONS:

For further information see MSDS

SPECIFICATIONS:

Form Liquid
Colour Colourless
Odour Characteristic
Melting Point Undetermined
Boiling Point 189°C
Flashpoint: >55°C
Density (20 °C) 0,8 g/cm³
Miscibility in water Insoluble
pH (20 °C) Not determined
