

BRIDGES AND DOCKS

- Lightning Bolts offers excellent supplies of the specific bolts and hardware that is oftenlused for building wooden-steel bridges and docks.
 - Custom sourcing overseas with certified and approved products.
 - Durable plating of hot dipped galvanized, ASTM A-123 for steel plates, and ASTM F2329 for corrosion resistance on critical applications.
 - Partnerships to stock inhouse the specific items you require at quick turn around time and are hard to find at the local market.

As a bridges and docks contractor, you require a partner that will be able to deliver at the promised time the right fasteners. These products will need to have quality control, traceability of the steel and its transformations, certification to be eligible for the most critical applications. You require more than a supplier: you need a partner to work hand-by-hand with you so you can win your tenders and ultimately secure your position as a leader in your industry. Lightning Bolts is here for you.

Why work with us?

- Expert technical knowledge to help you get the best custom product for your needs
- Traceability of steel, Certifications and Mill test reports on the material
- Our dedicated customer service will work with you every step of the way, to ensure your complete satisfaction.
- Large inventory and fast turnaround time
- Our extended manufacturing capabilities
