

CAPABILITY STATEMENT

Designed to protect workers' heads from minor bumps, bruises and abrasions, Linerz Bump Cap Hat Inserts find utility in low-impact settings such as aircraft maintenance, machining, installation, janitorial services, manufacturing, warehouses, etc.

Owner and Lead Designer Julie Pusateri developed and patented the very first Linerz universal, high-density foam bump cap hat insert back in 2003. This new lightweight, well-ventilated, flexible, and trim-to-fit insert design provided a cooler, more comfortable option to the hot and more constricting, plastic-based bump cap inserts that once dominated the market.

Linerz Inserts, LLC is taking significant steps towards promoting safety in the workplace, as well as fostering diversity and inclusivity in the business world as a certified member of both the WBENC & WOSB as a Women-Owned Small Business.

Linerz Inserts come in 4 levels of protection.

CORE COMPETENCIES

Proprietary Bump Cap Insert Manufacturing & Wholesale

LINERZ18 Linerz 1/8" Foam Bump Cap Hat Insert

LINERZ18HS Linerz 1/8" Foam Plus Flexible Hard Shell Layer Hat Insert

LINERZ14 Linerz 1/4" Foam Bump Cap Hat Insert

LINERZ14HS Linerz 1/4" Foam Plus Flexible Hard Shell Layer Hat Insert

DIFFERENTIATORS

Linerz introduced the first universal hard-shell fused, high-density foam hat insert in 2003, remaining the sole provider of its kind today.

Celebrating over a decade of industry experience, Linerz continues to pursue new and innovative ways of providing low-impact head protection.

Linerz integrates environmental and sustainable practices and takes pride in their devotion to quality.

Linerz actively promotes diversity and inclusivity in all aspects of business and beyond.
