

ABOUT THE COMPANY

Linerz Inserts LLC is a certified WBENC and WOSB women-owned company pioneering comfortable, full-coverage head protection solutions. In 2012 Julie Pusateri, Owner & CEO of Linerz Inserts, developed and patented the first flat-to-form, EVA foam bump cap insert that would bridge the gap between industrial head protection and no protection.

Linerz remains to be the sole provider of its kind today. Engineered to replace the rigid and ergonomically restrictive plastic-molded bump cap inserts that previously dominated the market, Linerz delivered a cooler, lightweight, more ergonomically adaptive, trim-to-fit solution - providing discreet, full-coverage head protection optimized for all-day wearability and user acceptance. Celebrating over a decade of industry experience, Linerz continues to pursue new and innovative ways of providing comfortable protection that workers will want to wear.

Beyond our proprietary bump cap line, Linerz provides comprehensive safety product sourcing and procurement services. Leveraging long-standing supplier relationships and volume purchasing channels, we can acquire nearly any PPE or safety-related product at highly competitive pricing.

Linerz products are protected under U.S. Patents 9,364,039 B2 and 10,058,140 B2, ensuring proprietary innovation and design integrity. Trusted by all 4 branches of the US Government, and industrial partners nationwide.

DIFFERENTIATORS

Over 10 Years of Industry Experience: A decade of dedicated product development, testing, and refinement in the bump cap and industrial safety market.

Engineered Protection: Utilizes state-of-the-art, environmentally friendly materials to deliver comfortable, reliable protection that encourages consistent team compliance.

Small Business Advantage: As a certified WBENC and WOSB small business, Linerz provides direct, responsive service with flexible order quantities, rapid decision-making, and a strong commitment to customer satisfaction.

Diversity-Driven: Certified Women-Owned Small Business and WBENC member promoting inclusion, safety, and innovation in manufacturing.

Patented Technology: Protected under U.S. Patents 9,364,039 B2 and 10,058,140 B2, ensuring proprietary innovation and design integrity.

CORE COMPETENCIES

LINERZ18

1/8" layer of protective high-quality, high-density EVA foam, providing lightweight, ventilated protection against minor bumps and bruises in low-impact environments.

LINERZ18HS

Double duty protection featuring our original 1/8" foam insert with flexible hard-shell layer for added protection against pokes and punctures.

CushCap™ Full-Coverage Bump Cap Hats

Comfortable, ventilated, stretch-mesh, full-coverage bump cap hats that allow you to choose your level of protection. Features a shortened bill for better visibility. Engineered to work seamlessly with any of our Linerz hat inserts. Available in S/M, L/XL, and XXL.

Custom Branding & Installation

Front and back embroidery available; inserts can be pre-installed in our CushCap hats or shipped separately for onsite assembly.

Safety Product Sourcing

Over 10 years of safety-industry experience with the ability to supply or procure a wide range of PPE related products at a great price.
