IDEAS THAT STICK

A guide to our retail window installs

NUTMEGWALLARTSTICKERS.CO.UK

Is planning your seasonal window displays feeling a little overwhelming?

Whether you need support with the planning, a full design service, or just someone to make your ideas a reality, a window install with Nutmeg feels simple and easy.

We can support you in any sized project, from a single self-install vinyl, through to a large-scale window install that requires consultations and a professional install. Our tailored and hands-on approach allows for a completely bespoke level of support — as much or as little as you need!

NUTMEG STUDIO

STEP ONE

Enquiry & Onboarding

We'll go through your design brief, review any relevant artwork (or we can create the designs with you!) and iron out details like text, colours, and images.

STEP TWO

Measurements & Planning

You can either provide us with the measurements for each part of your install, or we can come and visit you and do a site survey.

STEP THREE

Approving the Visuals

We'll provide you with scaled visuals, so that you can see exactly how we're imaging your project coming to life.

STEP FOUR

Manufacture & Install

Once your visuals are signed off, your artwork will be manufactured. We provide full fitting instructions for self-installations, or we can come and install everything for you!
