

**The innovative wall-mounted
water cooler system**

BLUlink

The new paradigm for the point of use watercooler systems with single or multiple connections

Amazing performance, elegant steel minimalistic design, space saving, safe, hygienic and totally silent, with zero impact on global warming... There are so many ways to describe BluLink.

Simply brilliant, a centralized unit serving multiple drinking stations placed throughout a building and on different floors, for unlimited cool, still and sparkling water. In a way that's cooler than you've ever seen.

	Water cooler	Wall	Carbonator Bowl	Recirculation pump	Max Piping	Maximum vertical height
	280	from 7 to 15 "Wall"	1	1	800 mt.	45 mt. (6 floors)
	280 plus	from 16 to 25 "Wall"	2	1	800 mt.	45 mt. (6 floors)

GAS R290 Natural gas with totally natural refrigerants (HC) such as R290.

stainless STEEL **anodized aluminium** Made entirely of stainless steel and anodized aluminium

fizz All models in the Fizz range supply sparkling water.

UV out **UV out OPTION**

A UV light at end of every tap. As demonstrated by numerous studies, UV light acts as a strong steriliser therefore preventing the growth of bacteria.

The new star of innovation and design.

- Essential design, versatile, can be fitted everywhere
- Minimal size and modular design
- Soundproof dispensing point
- Still and sparkling water
- Antibacterial uv light system
- Natural refrigerant gas
- Recyclable materials
- Unlimited water supply

The heart of BLUlink

BLUlink technical room

This is the heart of BLUlink. Where the hi-tech system filters, cools and fizzes the water and then distributes it throughout the circuit.

- 1 - CO₂ Automatic cylinder change
- 2 - Control box
- 3 - GSM Intelly System
- 4 - Antibacterial UV lamp
- 5 - Recirculation System
- 6 - Box Fizz 280
- 7 - Filtration
- 8 - CO₂ Cylinders

Optionals

GSM Intelly System
