Smart Brew™ Steeping Filter

The Brewista Smart Brew™ Steeping Filter. Its innovative twist shut-off design allows users to brew perfect pour-over coffee without carefully timing their pour like a seasoned barista. The simple two-piece BPA free plastic construction assembles and disassembles easily for cleaning in the dishwasher. Symmetrical design allows for ambidextrous use, and the skirted base with centered extrusions ensures the Smart Brew™ Steeping Filter won't slide off of your favorite mug or server.
