- Easy to read display
- Fast response
- Digital accuracy
- Battery included

## Brewista®

### Smart Temp™ Digital Thermometer

#### Replacing the thermometer in your Brewista® Smart Pour™ or Stout Spout™ kettle

- Unscrew the top ring from the thermometer and pull the thermometer out of the lid.
- Insert the Brewista® Smart Temp™ Digital Thermometer and turn it clockwise to screw it into place.

#### Setting the desired temperature

- Press the ON/OFF button to turn on the thermometer.
- Press the ▲ or ▼ buttons to set desired temperature.
- Press the °F/°C button to display the temperature in Fahrenheit or Celsius.

#### Using the thermometer

- Place the lid with the thermometer onto the kettle with the vent holes facing away from the handle.
- Begin the kettle heating process.
- The set temperature is displayed on the left side of the LCD display, the actual water temperature is displayed on the right.
- When the set temperature is reached, an audible alert is emitted:
  - The alert will sound for 1 minute and then one time every 15 seconds.
  - Press any button other than ON/OFF to stop the audible alert.

#### Battery

- To install or replace the battery:
  - Unscrew battery cover.
  - Insert the new battery with the positive side up.
  - Replace the battery cover.

#### WARNING:

- Do not immerse the display unit into water; dry immediately if it comes into contact with liquid.
- Keep out of children's reach.
- Clean metal probe before each use.
- Do not use the thermometer in a microwave oven.
- Power off when not in use to extend battery life.
