Smart Temp™ Digital Thermometer

Exclusively designed to replace the analog temperature gauge that comes standard with Brewista Smart Pour™ and Stout Spout Electric Switch or Stovetop Kettles. Programmable in one degree increments with digital accuracy. The thermometer emits an audible alert when water inside the kettle reaches the programmed temperature. Simple twist off and on design makes installation quick and easy. The included battery is easily replaced with convenient access on top of thermometer.

**Please note: Temperature gauge is not dishwasher safe and should only be hand washed.*
