#### THE ART OF GIFTING by Raymond Weil

Life is filled with special moments – occasions worthy of a gift that will stand the test of time, quite literally!

A timepiece shared between a couple on their wedding day is a traditional yet an intensely personal gift that will probably last for the wearer's entire lifetime – and beyond, through future generations. It's giving someone the gift of time.

Raymond Weil brings together all the elements of excellence of the Swiss luxury watchmaking industry making their watches the perfect gift to mark such a special occasion.

Precision and attention to detail set the tone throughout the creation process. Inspiration is what is found at the basis of each work of art; beauty and aesthetic proportions are no coincidence. From conception through to the final stage of assembly, Raymond Weil's attention to quality is constant.

The experienced watchmaker's hands and eyes and his traditional tools, are highlighted by highly sophisticated technology. Each watch is minutely examined and undergoes 350 checks before receiving the Raymond Weil quality label.

It's this guaranteed quality, beauty in design and attention to detail that ensures the gift given on the most special day of your life will last a lifetime.
