REGION/VINEYARD

The Adelaide Hills wine region has a reputation for producing some of Australia's most exciting cool climate wines. With an average elevation of around 600 metres the climate is significantly cooler than the neighbouring wine regions. Cool, dry summers and an autumn ripening period produce a balanced fruit flavour profile and natural acidity.

VINTAGE

The season started mild with below average rainfall before well timed rain in January. Yields were above average across most varieties with whites from this vintage showing ideal fruit flavour and acid balance. 2016 is considered by many to be the best 'all-round' vintage for some time.
