

## TROUBLESHOOTING

If the headlamp does not turn on, or works intermittently:

- Replace the batteries.
- Ensure the AAA batteries are inserted correctly according to the polarity (-,+)  
marked on the battery holder.
- Make sure the AAA battery holder is inserted correctly and secured.

If the light appears dim or faded:

- Replace the batteries.

If the problem persists, possible LED Failure. Contact GearLight for a replacement.

## MAINTENANCE

Inspect the headlamp monthly and carefully remove any damaged batteries and clean any corrosion. If the headlamp is used less than once a month, remove the batteries between uses.

## WARRANTY AND LIMITATION OF LIABILITY

### Limited One-Year Warranty

GearLight warrants this product for one year from the date of purchase against any defects in material or workmanship. This warranty does not cover normal wear and tear, nor damage resulting from misuse or neglect. We will, at our discretion, repair, replace, or refund the purchase price of this product should we determine it to be defective.

### Limitation Of Liability

Liability limited to the purchase price of this product. GearLight shall not be liable for any incidental or consequential damages or any implied warranty on this product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

## S1000 LED HEADLAMP

## Operation Guide

FOR YOUR SAFETY, READ BEFORE OPERATING

**IMPORTANT SAFETY NOTICE:** Lithium-ion batteries are potentially hazardous and can present a fire, explosion, and burn hazard. By using lithium-ion batteries, you agree that GearLight shall not be liable for any incidental or consequential damages arising from, relating to or connected with the use of lithium-ion batteries. If you do not agree with these conditions, please use only alkaline or NIMH rechargeable batteries.

### Package Contents:

- 1x GearLight S1000 LED Headlamp
- 1x AAA Battery Holder (Inside Battery Compartment)
- 3x AAA Batteries
- 1x Operation Guide
- 1x Warranty Card

**WARNING:** To avoid eye injury, do not stare directly into the light beam or shine the beam directly into anyone's eyes. Keep out of the reach of children.

## GETTING STARTED

**Note:** To access the battery compartment, pull the rubber cover slightly away from the battery compartment.

### AAA Battery Installation

1. Insert 3 AAA batteries following the correct polarity (+, -) marked on the battery holder.
2. Insert the battery holder back into the battery compartment with the correct polarity.
3. Replace the rubber cover, making sure that the cover is placed evenly over the rim of the case.

**WARNING:** Batteries can explode or leak and cause injury if installed backwards, disassembled, charged, crushed, mixed with used or other battery types, or exposed to fire or extreme temperatures. Replace all batteries at the same time. Never install a defective battery in the headlamp. Failure to follow safety instructions may result in personal injury or damage to property.

### 18650 Lithium-ion Rechargeable Battery Installation (See Warning)

1. Insert one 18650 battery following the correct polarity (+, -) marked on the battery compartment.
2. Replace the rubber cover, making sure that the cover is placed evenly over the rim of the case.

**WARNING:** Lithium-ion batteries can present a fire, explosion, and burn hazard. Use only 18650 battery cells with a protection circuit produced by Panasonic, Sanyo, Sony, Samsung, or LG. Remove the battery when the headlamp is not in use. The use of other cell manufacturers or the failure to follow the battery manufacturer's safety instructions may result in fire, explosion, personal injury, and damage to property.

**CAUTION:** The headlamp may become warm or hot after extended periods of use at the highest setting. Select a lower setting when the headlamp is hot.

## HEAD STRAP ADJUSTMENT

- To adjust the S1000 headlamp to fit your head, slide the buckles on the elastic headstraps.

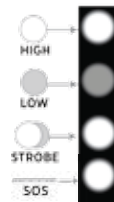

## OPERATION

### On/Off

- To turn the headlamp on, press down firmly on the red power button located on the side of the headlamp until you hear a click.
- To turn the headlamp off, press down firmly again to cycle through the different modes until the headlamp turns off.

### Switching Modes

- There are 4 different lighting modes. (High, Low, Strobe, SOS)
- To switch through the different lighting modes, press down firmly on the red power button to alternate through the 3 modes.
- To access the SOS mode, press and hold the red power button for 3 seconds.

### 90° Rotating Head (Fig. 1)

- Tilt the head up or down within a 90-degree angle to aim the light where it is needed.

### Zoom (Fig. 2)

1. Pull the head of the headlamp away to zoom in.
2. Push the head of the headlamp in to zoom out.
