

Elbow Support Urbane

Code- E 48

Size: S, M, L, XL, XXL

Tynor Elbow Support Urbane is scientifically designed to provide firm compression, support & warmth to the forearm and the elbow joint. The stabilizing silicon inserts on either side of the elbow give a firm grip and superior support, apart from having the ability to absorb the vibrations of the forearm. Forearm strap provides customized grip and compression. Used for prevention of injury in high impact, sporting activities like golf and racquet games etc. Can be used to allay pain, inflammation and stiffness, generally associated with old age, arthritis, injury etc.

Construction: Knitted on the most advanced machines to provide, 3 D shaped fabric for the most effective anatomic fitting. Intermingled spandex provides the unique four way stretch to the fabric which gives a superior comfort, compression and elbow support. The strong spandex thread runs spirally in the matrix of nylon locks to ensure its free movement to allow uniform compression even on uneven diameters of the elbow.

The silicon insert is expertly designed with correct softness to support and grip on both the medial and lateral sides of the elbow for excellent support in both Tennis and Golfers' elbow conditions. Unique color pattern gives the product sporty and highly pleasing looks

Instructions:

- Follow instructions mentioned on the box carefully.
- Discontinue use and seek guidance of a qualified doctor, in case of
