

#### DOSIS AANWYSINGS:

**Kinders (5-12):** Neem **helfte** van 'n volwassene se dosis

**Volwassenes (13 jaar en ouer):** Die eerste tekens van enige simptome – vir die eerste 3 dae neem 4 tablette 3 maal 'n dag (onybyt, middagete en aandete). Aan die begin van die 4de dag – neem 2 tablette 3 maal 'n dag. Vir Daaglikse Immuun Ondersteuning: Neem 2 tablette daagliks in die oggend.

**VOORKOMING IS BETER AS GENESING.** Gedurende die verkoue en griep seisoen, is dit belangrik om te verseker dat jou immuunstelsel op sy beste is, om jou en jou familie se gesondheid te optimaliseer. Sodoende het jou liggaam die vermoë om 'n virus of bakteriële infeksie te erken en te reageer en dit te verslaan. **DIE EERSTE TEKENS VAN ENIGE SIEKTE** is 'n teken om dadelik met gekonsentreerde immuun versterking Kan Jang te begin. Hoe gouer die immuunstelsel reaksie gestimuleer kan word om enige virus of bakteriële infeksie te identifiseer en te veg, is die kans beter dat die infeksie heeltemaal kan stop – of die vermindering van beide die erns en duur van die infeksie of siekte. **BELANGRIK:** Moenie met ander verkoue en griep medisyne neem nie.

#### DOSAGE INSTRUCTIONS:

**Children: (5-12):** Take **half** the daily adult dosage.

**Adults: (13 yrs and older):** At the first sign of any symptoms – For the first 3 days take 4 tablets 3 times daily (breakfast, lunch and dinner). Beginning the 4th day – take 2 tablets 3 times daily.

**For Daily Immune Support:** 2 tablets daily to be taken in the morning.

**PREVENTION IS BETTER THAN CURE.** During the cold and flu season, it is critical to keep your immune system performing at its best to optimize you and your family's health. This way your body has the ability to recognize any virus or bacterial attack and react and defeat it. **THE VERY FIRST SIGN OF ANY ILLNESS** is a cue to immediately begin concentrated immune reinforcement with Kan Jang. The sooner the immune system response can be stimulated to identify and fight any viral or bacterial infection, the greater the chance of stopping the infection all together – or reducing both the severity and duration of the infection or illness. **IMPORTANT NOTE:** Do not take with any other cold or flu remedy or drug.
