

R-Cage Bed Platform

I understand and agree with the following:

Design Intent

- Provides a level surface to install a mattress.

Compatibility

- Designed to fit the RADIUS OUTFITTERS R-Cage System.
- The sideways Bed Platform option only works if Flarespace Flares are installed.

Safety

- Safety straps are provided with the RADIUS OUTFITTERS R-Cage (NOT the Bed Platform) and must be installed and attached to each half of the Bed Platform at all times.
- Bed Platform must be properly secured to the R-Cage frame when folded up and out of the way.
- Aluminum brace must be securely strapped to the end of the Bed Platform when in use (This only applies to the sleep longways RADIUS OUTFITTERS Bed Platform).

Liability

- By installing RADIUS OUTFITTERS products on your vehicle you assume all liability. RADIUS OUTFITTERS will not be held liable for damages or loss associated with the improper installation and/or use of its products.

I have watched the R-Cage install video and my van looks like the van in the video. I understand that it is my responsibility to use the Bed Platform appropriately. I will not stow items that will cause injury if they do fall from the Bed Platform.
